Name: Goh Jo Ey

Matric: A19EC0047

Program: Computer Science (Graphics and Multimedia Software)

Program Code / Year: SECV / 2

Academic Advisor: Dr. Mohd Razak Bin Samingan

1. Justification in joining the activities

On 27th April 2021, I joined Huawei Connected Campus 2021 - N INCREDIBLE THINGS YOU CAN DO WITH 5G @UTM as a participant. The program started at 2.30 pm and ended at 4.30 p.m. All the UTM students is invited to this activity. Huawei Connected Campus is held as an online activity and the platform for this activity is Facebook. The purpose of this activity is to share the current 5G technology to the participants and have a career talk among the participants. This program also involves Q&A session and participants get the opportunity to win the prizes.

2. The Graduate Attributes that are focused on

a. Communication Skills

In the activity, the communication skills is applied. As the audience for the talk, we need to focus on the speech as a sense of respect to the host of the event. Through the career sharing sessions, the speaker of the talk also mentioned that communication is one of the important criteria as a employer in a company. We need to have a good communication to avoid the misunderstanding among each others.

b. Enterprising Skills

Enterprising skills is one of the graduate attributes focused on this activity. The speaker of the activity mentioned that the importance of enterprising skills in the career. Through the virtual live event, I learned how is the Huawei company apply the enterprising skills in the new innovation. We need to have innovative thinking to come up with the new ideas with the 5G technology. The enterprise skill is also important in the problem solving to make sure that we can overcome the challenges we met.

c. Adaptability

The adaptability is applied in this activity and we need to adapt to the changes as well as learn to overcome the problems in our daily life. For instance, the Huawei Connected Campus 2021 is not delayed due to Covid-19 pandemic and it is transform from an offline activity to an online activity. We also need to ready to face the challenges in our life and do not give up easily. The

speaker also introduce the new norm of the working environment in Huawei company during the Covid-19 pandemic.

3. Content of the activities

The program is started at 2.30 am through the Facebook page to carry out the Live Show. The participants need to register through the link provided before the program started. First, the activity is started with some introduction by the host of the event. Next, the host invites the speaker of this event to give the speech. The speech started with some briefing and introduction of Huawei company. The company background is explained in this section. After that, the activity continue with the 5G technology sharing session. There are also have 3 quizzes in this activity and every participants is given opportunities to take part in. The winners of the quizzes are announced in the end of the event. The activity lasts for two hours. At around 4.30pm, the activity is ended.
