

# HOW TO NAIL YOUR PRESENTATION

A presentation is a method for correspondence that can be adjusted to different talking circumstances, like conversing with a gathering, addressing a meeting or briefing a team.

## AVOID BEING A FACELESS VOICE

You have to keep yourself confident and turn on the camera while talking in virtual meetings. Over and above that, don't forget to turn yourself from camera shy to camera confident.

## PERFECTING THE DEMO'S

To make it even more interesting, presenters can add subtitles or add their company logo to make it look professional. In addition, if you want to do a demo, it's better to provide a demo video because video demo is sharable compared to live demo.

## PRESENTER HAS TO BE FOCUSED IF ANYTHING HAPPENS.

As we know, sometimes they are stubborn listeners who do not mute themselves and cause distraction to other people. Other than that, our children could also be our distraction in virtual meetings. We have to be well prepared so that things will not happen.

### TIPS : LOW INTERNET CONNECTION BETWEEN TEAMMATES

If the presenter has a bad connection then teammates will help to continue the presentation.

You have to keep yourself confident and turn on the camera while talking in virtual meetings.

Last tips are avoid being a faceless voice to the audience.

Over and above that, don't forget to turn yourself from camera shy to camera confident.
