

LIFE IS A GIFT

Olivia, a wallflower girl, had a sparkling beautiful black eyes and her dimple crinkle up the skin near her lips everytime she giggled at the jokes make her looks shining. She's the apple of her parents' eye. Olivia is finally enter the adult stage where she's finally away from her loving family and comforting home. At this stage, Olivia learns that life is actually the precious gift from God. She learn to be independent and live on her own two feet to explore and realize what life is it in this moment. Olivia believe that life is too short to be unhappy, she always stay positive for whatever happened and believes everything good or bad thing happening for a reason. "Each person owns life, each life has a world of its own. I believe that the meaning of life," define by Viktor E.

As a one and only daughter and granddaughter, Olivia received bundle of love not only from her parents, but also from grandparents, aunts, uncles and cousins. She is also grateful for having a very supportive family who believes, guides and advises whenever she is in trouble or when she do not trust herself. "Parents, brothers and sisters, grandparents, aunts and uncles are made more powerful guides and rescuer by the bonds of love that are the very nature of a family" said Hendry B. Eyring. Each family member had different roles for Olivia since she was brought into this world. The love from the grandparents are incredible. Jay Kesler stated "young people need something stable to hang on to – a culture connection, a sense of their own past, a hope for their own future. Most of all, they need what grandparents can give them." Eventhough Olivia is lived in the 21st century but she had a soul of the old school spirit. It happened because she learned it all from her grandparents. Her grandmothers always advised that a girl should not sleep and wake up until late in the afternoon, as a girl she should know to differentiate the type of vegetables, fish like sardines and spices such as curry. It can be distinguish through human sense by sight, smell, touch and taste. Besides that, Olivia learn how to ride a bicycle from her grandfather. She clearly remember the pain and wounded she had on her knees affected by the fall from bicycle. It might hurt but the memories that she had with grandfather are precious.

You don't choose your family. They are God's gift to you, as you are to them. Love from both father and mother are sweetest thing ever. When they call you darling it feels very different as you can feel the true love from them. Olivia's father always told her the story a moment when Olivia was born. He clearly remember the noise of babies crying in the labour room and the warm when he held her in his arm. A girl's first true love is her father! No matter how old a girl gets, she never stops needing her father. Olivia believe that daddy and daughter not always eye to eye but always heart to heart since she rarely met her father because he usually work oustation. Every weekend she would make sure she had time to spend and talk to her father and do family activities. However, Olivia's father left her when she was 17 due to coronary occlusion by thrombus. Since then, Olivia became independent. Her life has changed since then but she is blessed with the changes that made her who she is today. She promised that she would be a responsible family leader, protect her lovely mother and sweet

sister and always make them walking on air. Somehow, her parents may think they made a mistake throughout parenting but in Olivia opinion she's there and have been successful because of them and because of their support. Mom's love are pure, you could feel by looking her eyes. Her hugs never fail to warm your heart, her smile never fails to make you smile and her laugh never fails to brighten your day. Olivia's mother always be there for her through the ups and down, she helped her learn the value of independence and trusted her to make her own life decisions. Olivia thanked her mother because without her mother's support she would never have accomplished all her goals and dreams. Her mother showed her what true unconditional love meant, Olivia felt loved. Olivia's always inspires Olivia to be the best version of herself that she can be.

An aunts and uncles not only a role model for Olivia but someone she trusted to tell all about her problem. Olivia feels the seventh heaven for having them in her life. The character that her uncle and aunt had is they are fun, interested, responsive and trustworthy. For uncles, he have had a unique roles for his nieces and nephews. Olivia thinks her uncle cool, funnier especially when all the families gather at grandparents house. His jokes make everyone go crazy and laugh out loud. On the other hand, when it comes to serious, his anger issue are not something we can make fun of. Uncle are usually over protective, he doesn't like and doesn't trust other boy or men especially the one who close to Olivia. Try to mess with her, you will never find your body. On the contrary, uncle is a blessing especially to niece like Olivia. Since young, she loves to accompany her uncle watch football games. She is a girl full of curiosity. By watching the football, she get more close and start share favourite team together. Olivia's favourite football team is Liverpool, with the motto YNWA: You'll Never Walk Alone. Her uncle teach her many important things about football, plus every football team had at least one handsome player it bonus for her. Besides that, there's more about sport thing that she learn from her uncle.

Olivia loves everything about car, she always talk about a car with her father but when she's with her uncle, they talk about motorbike. Her grandfather always brought his son along with Olivia's father and his siblings riding motorbike on track every month for leisure activities since them all a boy. They compete legally and wearing safety guard. For her, riding motorbike is not a big deal because her father often send her to school by motorbike. Her favourite road racer is Valentino Rossi, an Italian professional motorcycle road racer and multiple MotoGP World Champion. His passion to bikes untill he can said this "I try to have a different relationship with the bike. I don't give it a name, but I always speak with it. I don't know if the other riders do the same. This is not only a piece of metal – there is a soul. The bike talks back too. But not with a voice, with the components" yet, when it comes to Malaysian racer, it's Hafizh Syahrin! The first ever Southeast Asian participate in MotoGP. His biggest achievement that he can compete with his role model, "Rossi was my idol, but now my rival" said Hafizh Syahrin on the MotoGP season at Qatar GP on March 18. Out of all the things she learn from her uncle, one of the best things she could use until today is learning to save money. Olivia once watch her uncle break his piggy bank at the end

of the year. She was amazed that her uncle could save the money to buy his favourite motorbike. Ever since then, she followed her uncle's tactics to save money inside the small mineral bottle so that the money would not easily come out. It was difficult to let the money out from the bottle. She thanked God for the greatest gift that He gave to her. The world's greatest uncle belongs to her.

Auntie is the wonderful gift ever that every niece had from God. Only an aunt can give hugs like a mother, keep secrets like a sister and share love like a friend. Especially when you are in the same generation with your aunt. Olivia loves to visit her aunt every weekend. She always went there to tell all her problems, worries, dreams and things that happened to her for a week while her aunt made her favourite french toast for her breakfast. Our kitchen conversation not only loud with the voices of our chatting and laughter also with the noise of crackling dishes. Olivia would even confide in her aunt about things she hadn't told her parents. Aunt is the best secret keeper like a witch or wizard designated to hide a secret in Harry Potter movie for example Peter Pettigrew the Secret Keeper for James and Lily Potter and Albus Dumbledore the Secret Keeper for 12 Grimmauld Place. To Olivia, her aunt not just an aunt, she is a role model. She has witnessed everything her aunt has gone through until her graduation for her Master's degrees. Her aunt faced many tough obstacles in her life but she managed to overcome all with flying colours results. Olivia has taken over her aunt's personalities. Her aunt was so polite with people, kind and diligent. She also never hesitated to help others, her aunt makes a good example for a little girl like her. Olivia thinks her aunt played a big role in shaping her personality. Another aunt named Bella, an adorable and adventuresome woman, who is living a life full of curiosity and travel over $\frac{3}{4}$ world at age of 35. Olivia had received so many souvenirs from all around the world even she never been there once. Aunt Bella had witnessed with her two eyes the beautiful aurora borealis in Norway from October to March, while in Greenland she has seen a unique aurora around mid August to late April. Moreover, her aunt loved adventures activities she loves hike and she will never give up on the opportunity to climb a new mountain. While doing activities with other tourists she made friends from other countries. Her aunt quite loquacious, it's comfortable to be around her, you won't get bored. Olivia is amused with aunt Bella's personality, aunt Bella also shares a lot of inspiration stories to her, making her dreams bigger and wanting to be like her.

Next, Aunt Katy she is a sophisticated girl, a very beautiful girl that every man can fall in love at the first sight and she's Olivia's favourite aunt. Shopping and sharing opinion with aunt Katy about fashion and culture, Olivia enjoyed these activities she gained as knowledge how to dress up properly and build confidence for herself. Aunt Katy lives in the same generations as Olivia, that's why they are more closer, they laugh over the simplest things and do fun things together for some quality girl time. Everytime there's an advertisement for upcoming movies, they will go watch it together especially when it comes to thriller and action movie. Their favourite action movie is Marvel. They summon up memories that they burst out crying in the theater because Ironman died and the line from Spiderman: Far from home "Everywhere I go, I see his face. I just really miss him." make them break down and cry. While Olivia is away from them,

she never miss a day to keep update her aunt in the group WhatsApp they create to ask any opinion from the elders, share her problem and worries and also only place they share their activities. Olivia just cannot wait to be home on midsem break catching up and chilling out with her glamorous aunt.

Whenever Olivia with her aunt and uncle, she is the youngest. They pampering her too much but when it comes to siblings and cousin, she is the eldest. She has to play a big role model for the youngest and she's totally a different person. With all the things she had learn from her aunt and uncle, so here she had to practice it. Having a crazy cousin is a blessed. The house could be disaster everytime we spend time together. Cousin can be your best friends, where you can go crazy together, a shoulder to cry on when you faced a fight with your best friends or boy friends and your go to for a nonsense advice just to cheer up your days because they cannot give you the best advice. Nobody will understand the craziness of you family better than your cousins. Whenever with the youngest, Olivia become lovely yet tough. She always lend an ear to hear the problems from the kids. Being mature enough yet adding some sense of humour to solve the problem by not to make the youngest feel more upset. On the other hand, Olivia also allow the younges to be there for her too, she think that it helps the youngest think how to solve some problems in a good way. And focus and give them full attention when the kids tell their story, activities and what they had learn from school. It helps them to recall what they had learn from school. On top of that, being a great supporter at important events take upcoming biggest examination, Sijil Pelajaran Malaysia (SPM) for instance. By saying "good luck", "you'll do great" or "may the force be with you" will give them spirit to make their best. In the same way of aunt, but do fun activities with cousin feels different, where you can play along, do something funny and feel less ashamed. This can be seen when Olivia and her cousin go to a nice place, we takes thousand of selfie and take photo of each other, posing like a model. Yes, our favourites activities is taking a photo together, once in a while we will go to playground to take a photo together. From the eldest to the youngest age 3 years old. Being away from home and cousin totally make Olivia's day gloomy. She cannot hear the noise made by the kids when they back from school. Besides that, she cannot bullied her favourite cousin Idlin by distrubing her sleeping. Hugs Karl and listen to Aqi's stories. Clearly, Olivia recall that she's away from home to pursue her study. The responsible as student she carried and be a good role model for others. Olivia realize that she had a place in her cousin's heart even she's away from home. They seek an advice from her, keep in contact through video call to see each other faces. Olivia felt much stronger and set her mind to become a good example for her cute and lovely cousin.

Besides aunt and cousin, there is another a group of girl always being next to Olivia. This group called Princess, consists of 7 princess including Olivia. They are all Olivia's best friends, their friendship was since they are 13 years old. A ride or die friend, a partner in crime who has seen her at her worst and helps to be her best. Olivia shares secrets that she cannot share with family. Olivia likes compliment when she feels not confident of herself, a simple words such as "You look great on pink!", "you top looks

nice on you”, “you are actually quite beautiful” from one of the princesses can blow her confident even some of them joke around said she looks awful. They might not always be the best spoken, but best friends always know how to give us the best compliments, from movies Pitch Perfect, Fat Amy said “even though some of you are pretty thin, you all have fat hearts and that’s what matters.” More than that, when the princess notice the little change from Olivia makes her blissful because she thinks the princess are real observer untill they can realize the little things about her. Although all princesses do not share the same interests, each of us has different hobbies and activities. Some princesses love adventure activities like Skytrex – best forest adventure and playing paintball, while some love window shopping to buy a new clothes, collect shoes and handbags or buy cute bracelets to symbolize friendship, and others love food hunting, refresh memory traveling to Malacca and Penang together to eat famous food. Together we try to adjust to the interests of our other friends, challenge ourselves to do different things and share common interests, get closer to each other and creating valuable memories.

“Family and friendships are two of the greatest facilitators of happiness.” by John C. Maxwell meanwhile Wanda Hope Carter said “Family and friends are hidden treasures, seek them and enjoy their riches.” But one things we cannot forget is our teacher or lecturer. Teacher is a person who helps students to acquire knowledge for students bright future. Specifically, a teacher not only teaches, but inspires and encourages students to be their best. School is not only a place of academic learning but social learning as well and will have an effect on how student interact with others in the future. “Education breeds confidence. Confidence breeds hope. Hope breeds peace.” By Confucius. This year Olivia living the life as postgraduate at one of the top University in Malaysia. There is one subject taken in this semester called Graduate Success Attributes. Graduate attributes have gained favour in university and these include the communicatng skills, thinking skills, scholarship, leadership and team-working skills, adaptability, global citizen and enterprising skills. Besides that, personal attributes such as self-awareness, self-confidence and personal values like moral and social responsibility, intergrity and etical. Olivia is a timid girl, her cheeks turning red when she gets attention from others. In Olivia’s opinion, she thinks this subject will make a difference in her life. She wishes she can apply the activities learned in the class after she has completed her studies, in work environment. Olivia appreciate the knowledge teacher has given to her. Thank you for imparting knowledge the best you could. Hearts of gratitude are scattered all over in honour of you. Thank you for being you; a great teacher.

Olivia thinks everyone’s coming into her life is a gift God gave her to make something happen. Whether it’s something for her to learn or something for her to deal with. However, every day Olivia learned something new and was grateful and pleased with what had happened. She tries his best not to complain when something does not go his way. If she ever did, she would look back on the gift and everything God gave and be grateful. She feel that she has nothing to complain about because she has received so much from God and everyone around him.
