ExCEL Activity Report

CGMA BOXTROLLS 2021

NAME:	NG JING ER
MATRIC NO.:	A19EC0115
PROGRAM:	2 SECV COMPUTER SCIENCE (GRAPHICS AND MULTIMEDIA SOFTWARE)
ACADEMIC ADVISOR:	DR MOHD RAZAK BIN SAMINGAN

1. Justification in joining the activities:

On 27th March 2021, I joined the Computer Graphic and Multimedia Association (CGMA) Boxtrolls 2021 which is an online program organised by Interactive Day 2019 as a participant. The committees include second year and third year students of Computer Science (Graphic and Multimedia Software). The platform of this program is on Google Meet and Discord. The objective is a sharing session of the final year seniors about their internship experience to the juniors.

2. Graduate Attributes:

1. Communication Skills

Communication skill is one of the important skills needed in this program. Most of us are divided into groups with different years. Therefore, we have the opportunity to discuss with other team members about our ideas about the content of group activity. We also have the chance to ask fourth-year seniors about the questions of internship and obtain important information from them.

2. Thinking Skills

The thinking skill has been used when I am joining this activity. This is because thinking skills are used by me when the seniors share their internship experiences with all the participants. We have to prepare questions and think about the difficulty of their internship and also our internship in future. All the comments and suggestions given by the seniors are useful for our future.

3. Content of the activities:

The program started at 8:30 am. After the registration session, the program started with the internship talk by final year seniors. And the participants are given chances to ask questions. Next activity is a speech by Dr. Zuraifah about our academic future. After that, all

the members had their ice breaking and sharing session among the group members by using Discord. After the lunch break, we proceed with a reflection session where the chosen first and second year students share what they gained in the session just now. During the Q&A session, we also discussed questions about academic, social and mental. At 4:00 pm, the closing ceremony was conducted.
