MOONCAKE FESTIVAL AND CULTURAL NIGHT

UNIVERSITI TEKNOLOGI MALAYSIA, 2019

NAME:	NG JING ER
MATRIC NO.:	A19EC0115
PROGRAM:	2 SECV COMPUTER SCIENCE (GRAPHICS AND MULTIMEDIA SOFTWARE)
ACADEMIC ADVISOR:	DR MOHD RAZAK BIN SAMINGAN

1. Justification in joining the activities:

On 29th to 30th of November 2019, I joined as a committee member of Mooncake Festival and Cultural Night under the programme planning department. As a committee member of this program, I have been involved in the preparation of this program for more than 1 month. The venue of this program is at Laman Menanti, Tasik Ilmu of UTM, Johor. The objective of the program is not only to introduce Nan Yang Chinese culture to the community, it is also a platform for all individuals to gather together and celebrate this traditional Chinese celebration, regardless of races and beliefs.

2. Graduate Attributes:

a. Thinking Skills

I am assigned to the programme planning department. Therefore, thinking skill is an important skill where we have to apply and think about the flow of the program. And I was also assigned the task for the opening ceremony for the first day of the festival. We had to think creatively to make the opening ceremony interesting and prepared a solution to prevent an unestimated incident from happening.

b. Adaptability

Throughout this program, I realised that adaptability is important as we must have the ability to suit ourselves to different circumstances. For example, when the flow of the activities has been interrupted by some unexpected reasons such as the delay of VIP arrival time, public address system problems, etc. Therefore in my opinion, adaptability is an important skill as we are able to show calm and confidence when facing a problem.

3. Content of the activities:

The opening ceremony of Mooncake Festival and Cultural Night started about 6.00 pm including the speech by VIP and president of PTUTM. There are many exciting activities held in this program for 2 days including dance performances by Free Dance Crew, UTM Flying Dance Studio, drama show, lion dance, chinese wushu, Electric-Techno Neon Gods, singing performance and lucky draw. The venue is full with attractive decorations such as cartoon design lanterns and lights along the street and pathway of Tasik Ilmu. There are also a lot of stalls available that sell different kinds of snacks and beverages. The closing ceremony is on 30th of November.
