PUAN ROZILAWATI BINTI DOLLAH@MD ZAIN

PREPARED ON:

16 APRIL 2021

From 17th October to 19th October 2019, Jawatankuasa Mahasiswa (JKM) Kolej Tun Dr. Ismail (KTDI) held a program called Open Day Resak 2019 or better known as OPERA '19. OPERA '19 has become a symbolic event since the program is a yearly event and has become synonymous with KTDI. OPERA '19 is a KTDI open day that organizes a variety of activities to attract the interest and attention of KTDI's residents and residents from other colleges to come and enliven the activities carried out at KTDI. With the theme "Kampung Resak, Riu Sekampung", there are several of exciting activities such as baraan, rewang and zapin lambak were held to enliven the theme of this program.

On October 18, various sports competitions were held from morning until the afternoon. Among the sports that were contested are futsal, netball, volleyball, badminton, table tennis, e-games and many more. Through sports competition held at OPERA '19, it has become a platform for KTDI students to show their talents in sports and has helped the college to make a short list of the potential athletes to represent the college for the upcoming UTM Games that will be held in November. Me as one of the secretariats was assigned as sport assistant under the table tennis category. Me and 2 other assistants helps Iffah Ruzana who is the leader of this sport in order to hold this category successfully.

First thing first, we recruited the participants who divided into 4 categories which are Men's Singles, Women's Singles, Men's Team and Women's Team. Not gonna lie, this sport is also well received since there more than 40 participants in total for all categories. As we planned to finish the competition for all categories on the same day, we had to start the sport earlier since the number of participants are above our expectations. We started to set up the competition equipment's such as the table, rackets, and balls. The competition started at 9:30 a.m at Sports Excellence Stadium Azman Hashim UTM where there are several assistants help us in order to control the game well enough.

We felt grateful that the competition is going well, and we managed to record all the winners fairly and equitable. The game ends at 5:30 p.m. and we started to rearrange the equipment back into the store. The game dragged until 5:30 p.m. because we had a lunch break before continuing the games with several single category participants. Soon as the winners is recorded, we passed the result to the gift management for announcing the result by tomorrow during the closing ceremony.

In the evening, I managed to help the committees by joining the rewang activity which is serve the porridge or so called 'Bubur Lambuk' for free to all KTDI residents. Right after

the person in charge for the serving came, I enjoyed the night by watching other activities such as KTDI Got Talent that was held at the KTDI square. Overall, everyone seems to enjoy all the performances that were carried out by members of the AKSARA RESAK, a culture club under KTDI. All the activities that were carried out during the program run smoothly even during the bad weather. Without a doubt, I think this program helps me to enhanced my communication and arrangement skills since I managed to help Iffah in conducting the competition and join the physical test for my Programming Techniques course. I hope that the program will continue to run successfully with more lively and interesting programs to be included in the next edition of OPERA program.
