EXCEL REPORT ACTIVITY 1

DATA ENGINEERING SYMPOSIUM

MUHAMMAD ANAS ALIF SHAH BIN AZELI SHAH
A19EC0193
2/SECP

ACADEMIC ADVISOR: PUAN NOR HAWANIAH BINTI ZAKARIA

Contents

1.0   Program Information

Date: 27th April 2021

Venue: Facebook Live @ Persaka Facebook Page

Organizer: PERSAKA

2.0   Position in the activity
Role: Vice Director

3.0   Graduate Attributes

3.1   Communication skills
During the symposium, there are Question and Answer session, participants and speaker need to communicate with each other even though with the questions are asked on the comment section. Volunteers that involve in the live stream like moderator and prayer reciter also requires a high communication skill to smoothen the program's flow. As a part of the organizer, I, the vice director recognized clear communications with each other. This skill is very crucial to everyone and it should be taken as a priority in soft skills development.

3.2   Scholarship
The symposium's topic "Career Track in Data Engineering" is self-explanatory of the content's importance. A lot of undergraduate students shall plant an enthusiasm of personal level of education as it will be a measure point for our future. The symposium's content incentivizes a lot of students to put in efforts on path that we invest in.

3.3   Adaptability
Adaptability is the core attribute in the symposium since it was shared by an experienced data engineer. As a student, a lot of adaptability was needed to correlate the experiences countered by the speaker. With good adaptability skills, we will be able to understand better the symposium hence helping us greatly to learn maximumly through the sharing.
