PREPARED ON:

16 APRIL 2021

Universiti Teknologi Malaysia (UTM) became the first among public universities to host Huawei Connected Campus for this year, 2020. The event was held at Dewan Sultan Iskandar, UTM Johor Bahru campus on 3rd March 2020. The one-day event had gathered more than 3000 students engaged in various activities including talk by Huawei leaders, campus recruitment, and showcase of Huawei products and solutions. Me myself as one of the participants felt enjoyable since Huawei is one of the finest companies in the world. Not to forget, I'm a Huawei user since 2017 and I really do see the enhancement in each of their devices such as the 5G's device and their self-build apps store.

The event started with a short speech from our Vice-Chancellor, Prof. Datuk Ir. Dr. Wahid Omar where he believed that this joint event organised by academia and industry was a good platform for UTM to learn and experience the future and to foster partnerships for the betterment of Malaysia's higher education, industry, society, and the whole nation. The event was also attended by Mr. Lim Chee Siong (Director of Huawei Cloud & AI Southern Pacific Region), Ms. Emily Peh (Senior Talent Development Manager Southern Pacific Region), Prof. Dato' Ir. Dr. Mohammed Rafiq Dato' Abdul Kadir (Dean of UTM Faculty of Engineering), and Assoc. Prof. Dr. Othman Ibrahim (Director of UTM Career Center).

After that, me and my course mates take a good tour to each provided booth. And somehow, we gained a bunch of knowledge on how AI works, and data been used in these industries. We also had a good conversation with one of the Huawei employees, Miss Lee who is a business manager of Huawei Johor branch. From the conversation, we truly understand on how Huawei keep on rising in terms of production and marketing. Miss Lee also encouraged us to apply jobs or internship at Huawei company in order to gain more experience and have a good working environment.

Me personally touched by her encouragement and also has the eager to join Huawei in future. And from my meagre knowledge about data, I think Huawei delivers unified storage solutions for our largest enterprise applications and most demanding technical workloads. It boasts integration of block-level and file-level data storage, support for a variety of storage protocols, and GUI-based central storage management. I hope UTM could collaborate with Huawei once again to conduct this kind of event in future.

Entry Ticket:

NAME Nor Hafiyzha Md Husni	TICKET TYPE FREE Admission	
EVENT Huawei Connected Campus 2020 @ Universiti Teknologi Malaysia, Johor	ORGANISER Huawei	
VENUE Dewan Sultan Iskandar, Universiti Teknologi Malaysia, Johor	ORDER REF. ECA1F242	
START DATE / TIME Mar 03rd 10:00AM	ATTENDEE REF. ECA1F242-1	
END DATE / TIME Mar 03rd 4:30PM	PRICE RM0.00 (inc. RM0.00 Fees)
