FACULTY OF ENGINEERING

SCHOOL OF COMPUTING

SEMESTER 1 2019/2020

EXTRA-CURRICULAR ACTIVITIES REFLECTION REPORT (2)

COMPFAIR 2020 (COMPFAIR'20)

(LEADERSHIP AND TEAMWORKING SKILLS &
COMMUNICATION SKILLS & THINKING SKILLS)

PREPARED BY:

SAHARULNIZAM HAKIMY BIN SHOBRI

A19EC0205

ACADEMIC ADVISOR:

PROFESOR DR. HABIBOLLAH BIN HARON

PREPARED ON:

20 APRIL 2021

Persatuan Mahasiswa Sains Komputer (PERSAKA), Universiti Teknologi Malaysia (UTM), had organized Comp Fair '20 event from 10th December 2020 till 11th December 2020. It was the largest annual IT event held with the specialty of academic and IT knowledge by School of Computing students. Comp Fair '20 primary objective was to promote active learning culture among School of Computing students, thus acting as a platform to enhance the students' IT knowledge and awareness of the latest developments in the computer science world. Comp Fair '20 aimed to impact society through activities such as prep talk, academic workshop, forum, and programming battle.

As the program director, I was in charge in making sure that the program could be held. From the per-planning phase till the post-mortem, I am in charge of the whole thing. I need to delegate the task accordingly to respective position in the committee. Most important, I am in charge of finding and recruiting the right committee members that could make sure the program can run successfully. Several meetings were held with the high council of PERSAKA in order to give the latest update about current progress for each bureau. We update everything during the planning phase. As I am the Director, I need to present it to the high council of PERSAKA, thus a weekly meeting is setup by me so that each bureau can update their progress to me so that I could deliver it to the higher council.

Some of the activities held in CompFair 2020 are Programming Battle, a platform for students to showcase their coding & programming skills, Prep talk was one of the ways of talk which allow speakers to interact with audiences for a particular theme such as "Mental Skills is Important as Other Skills" conducted by Dr. Zulfikar Ahmad from UTM Counselling Centre, "Challenges During Start-up and How to Survive" conducted by Dr. Ruzimi Mohamed from IMI Creative Sd. Bhd., and "Get to Know the Reality of Internship" conducted by internship students from UTM during the event. Other than that, Computing Alumni League (CAL) which is a forum that brought the topic of "Journey from Engineering to Entrepreneurship", was conducted by UTM alumni, the CEO and COO of RunCloud company, Mr. Arif Tukiman and Mr. Amir Fazwan.

Last but not least, the Chair of School of Computing, Prof. Ts. Dr. Wan Mohd Nasir Wan Kadir was invited to give a closing speech and officiate the Comp Fair '20 Closing Ceremony. I also give a closing speech to appreciate and congratulate everyone who participate in the event. In conclusion, this event had run and wrapped up smoothly with over 700 participants and viewers who joined the activities together. I do feel grateful that in

a month time, I could make sure that the program run smoothly. I really help me in enhancing some of the core skills which is leadership and teamworking skills, communication skills and thinking skills.
