

UTM
UNIVERSITI TEKNOLOGI MALAYSIA

ExCEL Prerequisite

Name: Jeggean A/L Rajendran

Matrix Number: A19EC0059

Academic Advisor : Prof. Madya. Dr. Haza Nuzly Bin Abdull
Hamed

Activity : Sukan Sekolah Komputeran 2020 (SUSKOM'20)

Activities information

Date: 1st March - 7th March 2020

Venue: School of Computing, UTM

Organizer: Persatuan Mahasiswa Sains Komputer (PERSAKA)UTM

Graduate Attributes

- Communication Skills
- Leadership
- Team Working

Position/Role in the activities

The role that I played in this leader role where I invited all my classmates to join the SUSKOM'20 event and we all became a team.

Mini Report

Justification in joining the activities:

This happen during my 1st year in UTM. So all my classmates are still new to me and we all are not very close to each another. I always wanted to do something that can make me closer to my fellow classmates and shorten the distance between us. So, I see the poster for the Tarik Tali competition in the WhatsApp and decided to participate in it. But I also need another 9 members in order to join the event. So, I approach my classmates in the group asked them if any of them was willing to participate and pay the member fee and to my surprise almost all of classmates decided to join the event. I also join to increase my communication skills where I came out of my comfort zone and speak to my fellow classmates.

The Graduate Attributes that are focused on:

This event has focused on 3 Graduate Success Attributes which include **Communication** skill, **Leadership** and **Team Working** skill.

The event has taught me about the **communication skill** where I need to come out of my comfort zone and speak to fellow classmates with different races. I who is an Indian mostly spent time and speak with my Indian friend in our mother tongue language. So, I was able to improve my communication skill which is Malay and English when I speak to classmate which is different race.

Next is the **Leadership**. I was the leader for this competition for my class. So, I was given the responsibility to handle my class to prevent something bad from happening and make sure the competition goes smoothly. I also need to thank my classmates for accepting all my command and instruction during the holiday.

Lastly is the **Team Working**. So, this is a team sports and team working is important. Many of my fellow classmates follow and cooperated with me during the event. They follow the order I was determined and give their best for the team.

Content of the activities:

This activity is organized by PERSAKA and it is sponsored by Mutiara Johor Bahru and OYO Malaysia. This activity aims to encourage students from the school of computing, UTM to involve themselves in sports so that they can improve their physical and also mental health. It involved every undergraduate student from the School of Computing.

SUSKOM already held competitions for sports games like Badminton, futsal, netball and also volleyball. Meanwhile, SUSKOM also encourages students who involve themselves in E-sports by organizing tournaments for video games like PUBG, Mobile Legends, Call of Duty, FIFA and also DOTA 2. My activity Tarik Tali was held at Belakang 116/117/118.

Then, the activity ended with a closing ceremony held in Kejora Hall, N28a, School of Computing. The ceremony enlivened with the prize-giving and lucky draw session.

Self-reflection

In a nutshell, after taking part in the SUSKOM'20 Tarik Tali tournament, I have learned so many lessons which can improve my game or even my personal life. I need to thank my team for supporting me by joining this competition. I also realized that anger is just an emotion of dissatisfaction and I was dissatisfied of my performance in the tournament. Therefore, I will train harder and learn more skills so that I can be the best of the rest and at the same time win the tournament. I also learned that being overconfident will end up in disappointment. I should always be prepared and do not take things easily. I also was able to come closer to my other classmates and now peaking regularly to them.
