DESYM '21: CAREER TRACK IN DATA ENGINEERING

Data Engineering Symposium '21 or better known as DESYM '21 was a program organized by Persatuan Mahasiswa Sains Komputer (PERSAKA) on April 27th, 2021. The program was streamed online through PERSAKA Facebook Live.

An expert speaker from TMONE who is also a UTM graduate, Ms. Qistina Batrisyia binti Azman Shah was invited to share her insights on the career tracks in Data Engineering or any data-related fields and her working experience as a Data Engineer in TMONE.

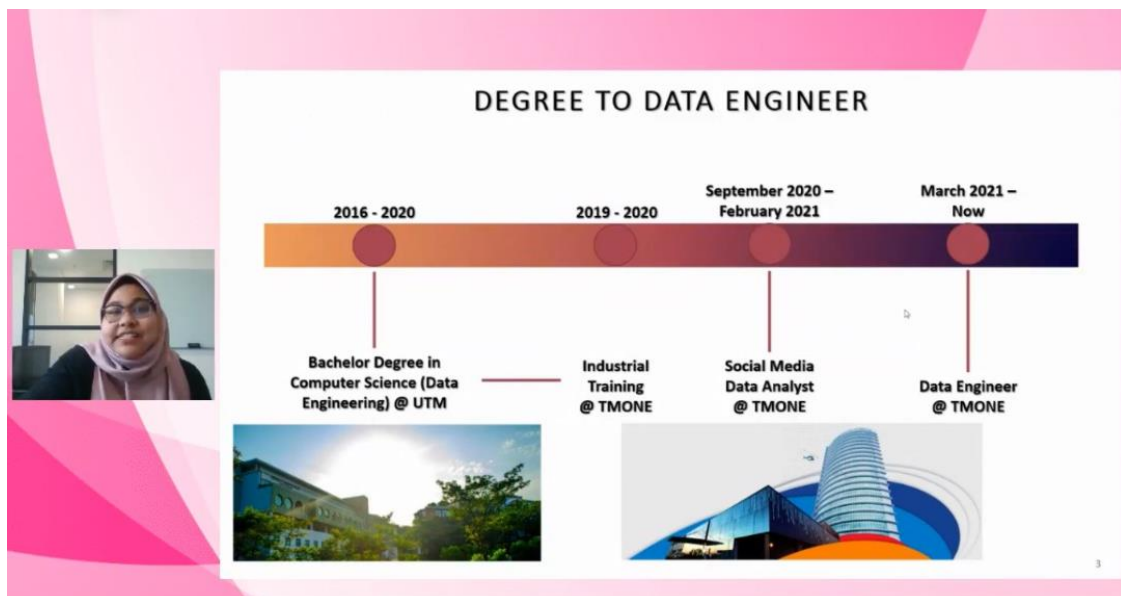

Our speaker, Ms. Qistina Batrisyia binti Azman Shah, Data Engineer from TMONE

Moderator for DeSym '21, Jayaneysanraj A/L Jayaraj

Among topics that had been shared during the program was Ms. Qistina's degree journey at Universiti Teknologi Malaysia (UTM). Ms. Qistina also shared her industrial training experience with TMONE, as well as her working experience as a Social Media Data Analyst and Data Engineer in TMONE.

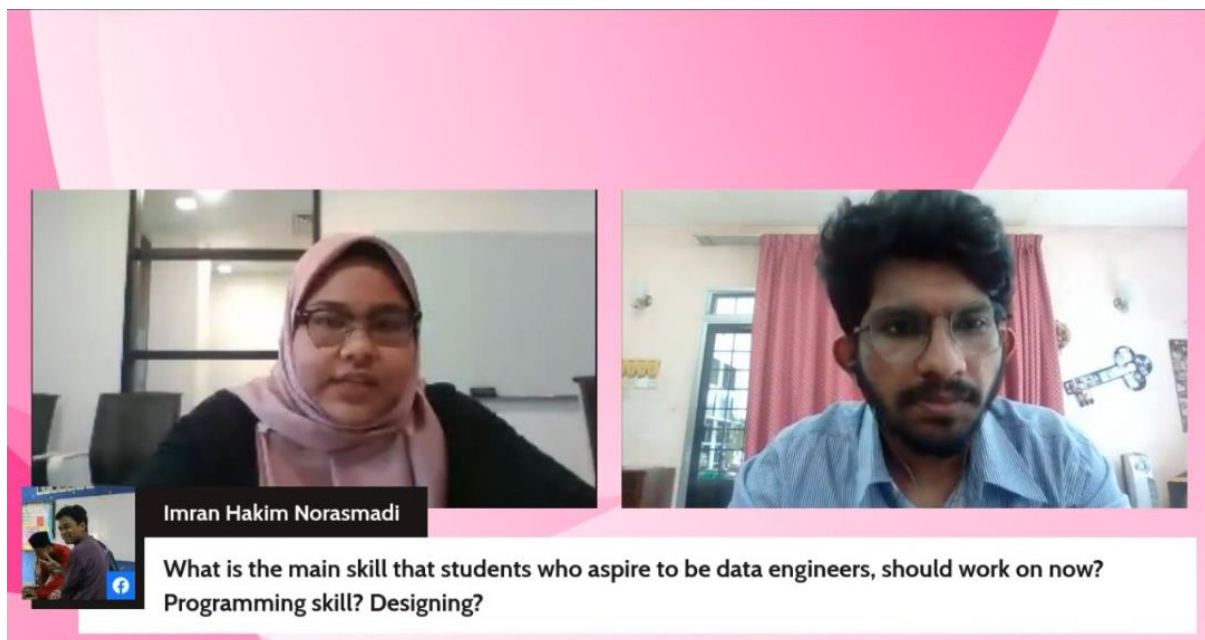

Sharing session on career in Data Engineering by Ms. Qistina Batrisyia binti Azman Shah

Through this program, Ms. Qistina also touched upon the career opportunities for recent graduates in Data Engineering field that can be explored in related fields such as web analytics, cloud computing and many more. Ms. Qistina shared the challenges faced in her workplace and provided DeSym'21 audiences with information on the future in Data Engineering and the required skills they should further master and develop.
