

ExCEL Activity report

Greeny green 8.0

Name : Chua Chen Wei

Matric Number : A19EC0038

Programme : SECP Bachelor of Computer Science (Data
Engineering)

Academic Advisor : Dr Azurah Bte A Samah

Programme Information

Date : 6th December 2020 – 5th January 2021

Venue : Online Platform (Google Meet, Facebook Live, Zoom)

Organizer : AIESEC in Johor Bahru

Position / Role in Activities : Assistant Director

Graduate Attributes :

1. Adaptability
2. Leadership and Teamworking Skills
3. Thinking Skills

Justification in Joining the Activities

This is the third term in AIESEC and I wanted to continue to learn in this organization as I found out that there are still a lot of things I can learn and grow within this wonderful group of people. Therefore I continue my journey as an Assistant Director in this project Greeny Green 8.0 to learn more about planning and managing a team with the help of my previous Director.

The Graduate Attributes that are Focused On

This project helps to develop **Leadership and Teamworking skills** where I need to lead the new team member in the team while my director will lead the old member of the team, It is a new exposure to me to actually have the power and responsibility to lead someone in my life. Furthermore , this project also allow us to work in a team of 7 which include a director , assistant director and 5 other organizing committee.

This project helps us to develop **Adaptability**, In the previous project I've used to work with the same people, in this new project, there is new blood that are coming into our team and as an assistant director, I need to adapt to their personality, their working style and their preferable method of receiving tasks and information.

Lastly, this project helps us to develop **thinking skills** where this project provide us lots of challenges and difficulties in many aspect such as people management problem, financial and legalities problems, operational problems and much more, It leads us to form a solution oriented mindset and start to think what can we improve in every small aspect in our project.

Content of the Activities

In this project, we are doing a Local Volunteering Exchange where we invite people from Malaysia to volunteer in the issues that are happening in Malaysia. Greeny Green 8.0 is one of the project in AIESEC in Johor Bahru that contributes to SDG 13 and aims to cultivate environmental awareness among the youth in Malaysia and train youth to be more capable in taking action towards the issues. In Greeny Green 8.0 , we had interviewed 7 volunteers to help in our project and invited external partners such as Backyard Farmer CO. , MINUS Zero Waste Store, PYNG Zero Waste to deliver trainings to our volunteers as well as associating as a speaker in our webinars that were held on Facebook Live. During the project duration, we also held 2 online workshops which including 21 students from two NGOs which is Berkat Children Home and also Jeremiah Welfare Charity Society to educate them about the Eco-bricks and Hydroponic Planting. We also held online campaigns that requires the volunteers to make videos and posters to educate people in Malaysia about the environmental issues that are happening and serious in this times.
