**MATRICS NUMBER:** A19EC0137  
**PROGRAM:** SECV COMPUTER SCIENCE (GRAPHIC AND MULTIMEDIA SOFTWARE)  
**BATCH:** 2019/2020  
**ACADEMIC ADVISOR:** DR. NORHAIDA BTE MOHD SUAIB

**Justification in joining the activities:**

CGMA CID 2020 has been held on 19th December 2020 on the Google Meet platform. This program has been held by Computer Graphic Multimedia Association (CGMA). This program has required all the members of CGMA to joining the program. This event will be held online for the first time. The main objective of this program is to welcome and introduce CGMA to new SECVH first year students. The event will also build a good relationship between members of the association through interactive activities.

**Graduate Attributes:****1. Communication Skill:**

These skills not only can be improved for the participant but the committee members as well. The participants will be placed in a group during the program and they need to complete all of the activities given together. Although it was an online program, all of the participants show great communication with each other as they completing the activities together. The communication skill between the committee members shows when then there are some problems arise during the program but they managed to solve it very well.

**2. Thinking Skill:**

This program also can improve members thinking skills. The activities that have been held required the participant's thinking skills. One of the activities that require thinking skills is to create a banner. The participants need to thinks about how to create a banner design for a specific theme which is Covid-19. The members need to create a banner that is effective and creates public awareness of coronavirus disease 2019 (COVID-19).

### 3. Leadership and Teamworking Skill:

Leadership skills are important for the leader of committee members and also the leader of the groups for participants. They play an important role to lead the members throughout the program. Teamworking skills also can depend on the member's ability to communicate well, actively listen and be responsible during the program.

### **Content of the activities:**

On the day of the program, all of the committee members need to get ready for the program at 7.30 a.m. They need to make sure all of the unit members ready in their place to start the program. The program has been held on the Google Meet platform. At 8.00 a.m. the first registration will be given to the participants to fill out. The program will begin with ice-breaking activities by play 'CID Says'. After the lunch break, the program continues with other activities such as Kahoot, LDK1, and virtual kayak. The closing ceremony are been held with the award ceremony to the winners. The program ended with a photo session with all of the participants of the program.
