# 1. Activities Information

Date: 1/11/2020 - 1/12/2020

Venue: Online <https://www.facebook.com/utmpersaka/photos/4606010222802951>

Organizer: PERSATUAN MAHASISWA SAINS KOMPUTER (PERSAKA) UNIVERSITI TEKNOLOGI MALAYSIA

## 2. Graduate Attributes

- Thinking Skills

## 3. Position/Role in the Activities

I have participated as a participant of the t-shirt design contest.

## 4. Mini Report

I was interested to join this contest for some reasons. First, I have seen a lot of students in UTM wear school of computing t-shirts with various designs, so I wanted to design the school of computing t-shirt. Second, I have experience with photo editing skills so I wanted to use these skills to design the t-shirt. And I got to join this contest because I often checked the PERSAKA social media.

Since the contest is about design, It could help to boost the thinking skills by blowing creative ideas up for the t-shirt design.

This t-shirt design contest 2020 was an online contest, and the PERSAKA uploaded the t-shirt designs from participants on their social media. And the PERSAKA selected the winner as the post who got the most likes. And the winner was rewarded RM100 and a free t-shirt with the winner's design, and the winning design could be sold to all sc students.

## 5. Self-reflection

I could improve my thinking skills for more creative ideas of design. Since there was no theme for the t-shirt design, it was hard to decide how I should design the t-shirt. But from the trials of editing and designing the t-shirt, I decided to submit the simple type of t-shirt design.

During the voting for the t-shirt design, I could explore other student's t-shirt designs and I realized that my design was way too simple compared to others.

In conclusion, I couldn't get rewarded but from this contest, I could learn the creativeness of others and could think of how I should improve myself for designing and thinking. Even though I couldn't get rewarded, It was a great experience for me to improve my confidence since my t-shirt design was displayed to the public. Therefore on next time, I want to challenge myself again with a better design and more confidently.

## 6. Certificate/Photo/Video
