WORK EXPERIENCE

MYVAC
SIBU
Jun 2021 - Aug 2021

Voluntary Work

I did voluntary work at Myvac in Vaccine Center, located in Indoor Stadium, Sibu under Program Pemberian Vaksin organised by Ministry of Health Malaysia. Basically what we did was helping officers to do non-medical jobs in order to make sure the work flow in public vaccination went into a fluent way. Challenges and skills obtained as a volunteer:

- Communication skills to public
- Skill to master effective informations in short period
- Adaptive to different environment

KELAB PAL

Undergraduate

Currently, I am a Year 1 student, studying in Bachelor of Computer Science (Data Engineering) with honours in UTM. In this course, I learn lots of softskills which needed in future jobs like database, data mining, data analytic skill and etc. Besides, we gain experiences in industrial works by internships and industrial projects.

Matriculation

I had my pre-university studies in matriculation. I took Module II (known as physical science stream) which included 4 subjects; Chemistry, Mathematics, Physics and Computer Science. I achived ecxellent result in matriculation with CGPA 4.0 .

Secondary School

I had my secondary school life in SMK Saint Elizabeth, located in my hometown, Sibu. During secondary school, I scored an outstanding result which I got 10As and 1B in my SPM examination.Besides, I gained lots of knowledge and experiences to be a rational and responsible leader in either curriculum and extracurricular activities during five-years secondary school life. Below are the activites:
