Ms Nurashikin (The She Society)

Introduction: NABC

Period poverty is the lack of access to safe and hygienic use of sanitary products due to financial constraints that has been side-lined in Malaysia as if it does not exist

Social media has been widely used as a platform to spread information this includes crowdfund campaigns and awareness.

To develop a crowdfunding system that mainly focuses to tackle and raise awareness on period poverty called 'HELPSHI'

The benefits include to provide a designated platform to tackle period poverty, to raise awareness on this issue in Malaysia, to reach the targeted community easily and to encourage the attitude of helping each other

Introduction: Use Case Diagram

Two users: Admin and Donors

- Admin can manage account, view page and generate report
- Donors only can view page, make donation request help and make report.

Introduction: Development Tools

Tool	Descriptions
 Visual Studio Code	<ul style="list-style-type: none">• Streamlined code editor with support for development operations like debugging, task running, and version control• Combines the simplicity of a source code editor with powerful developer tooling• lightweight well-done editor, with few features but less complex• Simple and intuitive
	<ul style="list-style-type: none">• A web-based language that tells browser how to showcase text and images on a webpage.• Easy to learn• Every browser supports HTML language
	<ul style="list-style-type: none">• A style sheet language used for describing the presentation of a document written in a markup language such as HTML• Saves time - can write CSS once and then reuse the same sheet in multiple HTML pages• Easy maintenance - To make a global change, simply change the style, and all elements in all the web pages will be updated automatically.
	<ul style="list-style-type: none">• A scripting languages, primarily used on the Web• Simplicity - relatively simple to learn and implement• Interoperability - plays nicely with other languages and can be used in a huge variety of applications.

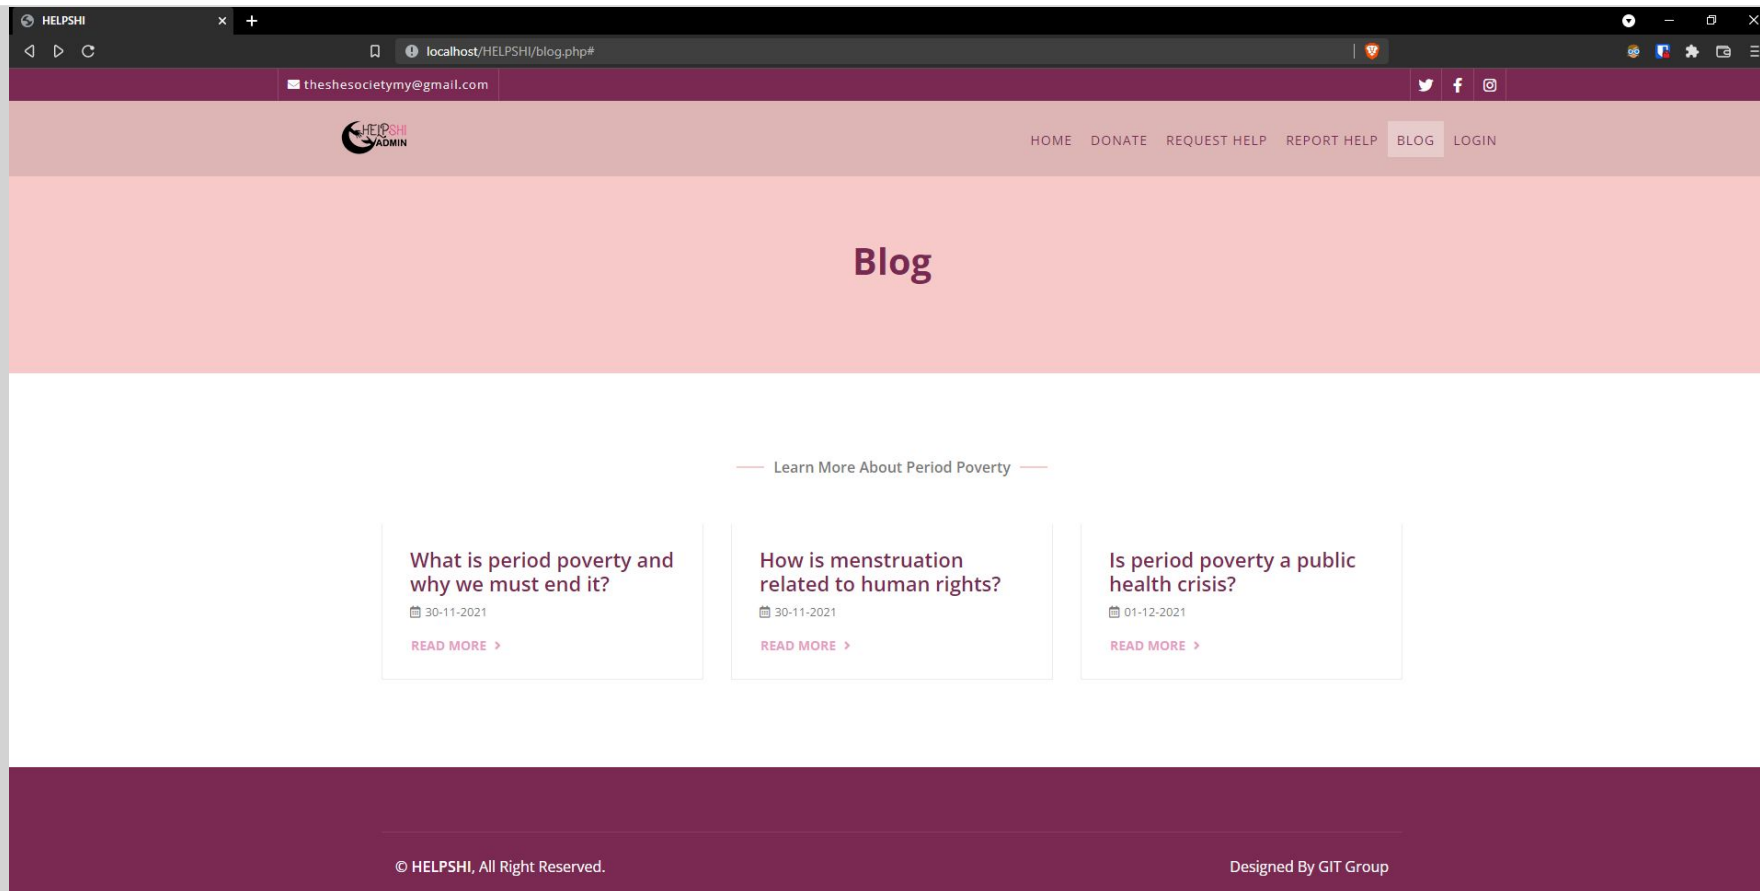

Introduction: Development Tools

Tool	Descriptions
	<ul style="list-style-type: none">• An open-source package of web solutions that includes Apache distribution for many servers and command-line executables along with modules such as Apache server, PHP and more.• Helps a local host or server to test its website and clients via computers and laptops before releasing it to the main server
	<ul style="list-style-type: none">• A general-purpose scripting language that can be used to develop dynamic and interactive websites• It's easy to learn and use• It's versatile• It is well connected with databases
	<ul style="list-style-type: none">• A database system used in web• An open source, reliable, compatible with all major hosting providers, cost-effective, and easy to manage
 Jira Software	<ul style="list-style-type: none">• Used for planning, tracking and releasing the software• Can accomplish the work in progress, generate reports, backlogs etc• Built-in roadmaps - Track progress of how projects are progressing so you can get a clear overview of your teams work and plans.

Backlog and Active Sprint by Siti Fatimah

The screenshot displays a Jira issue page for the 'View page (public)' issue. The interface includes a top navigation bar with 'My open issues', filters for Project, Type, Status, and Current User, and a search bar. A left sidebar lists user avatars and names. The main content area shows the issue title, description, and activity. A right sidebar provides details about the issue, including assignee, labels, sprint, and reporter. The issue is assigned to Siti Fatimah Az Zahra and is part of the HSS Sprint 2.

The screenshot shows a web browser window with multiple tabs. The active tab is 'HELPSHI Admin'. The browser's address bar shows 'localhost/HELPSHI/blog-admin.php'. The page content includes a header with the 'HELPSHI ADMIN' logo and a user profile icon. Below the header, there is a 'Blog Posts' section with a '+ Add' button. A table lists three blog posts, each with a 'Post ID', 'Date', 'Title', and 'Author'. To the right of each row are three icons: an eye (visibility), a pencil (edit), and a trash can (delete). The browser's address bar at the bottom shows 'localhost/HELPSHI/delete-post.php?id= 4'.

Post ID	Date	Title	Author
2	01-12-2021	Reducing Period Poverty in Malaysia	hanim@gmail.com
3	01-12-2021	Accessibility to Supplies	hanim@gmail.com
4	01-12-2021	Movement Restrictions	hanim@gmail.com

HSS-9 (US009 – Delete Blog Post)

Team Member 2: Aqilah Hanim

The screenshot shows the phpMyAdmin web interface. The browser address bar indicates the URL: `localhost/phpmyadmin/index.php?route=/sql&server=1&db=helpshi&table=blog&pos=0`. The interface displays the 'blog' table structure and data.

Table Structure:

Backlog and Active Sprint by Aqilah Hanim

The screenshot displays the Jira Software interface. At the top, the navigation bar includes 'Jira Software', 'Your work', 'Projects', 'Filters', 'Dashboards', 'People', 'Apps', and a 'Create' button. A search bar is located on the right. The left sidebar shows a 'Filters' section with 'Search issues' and an 'OTHER' section with 'My open issues' selected. Below this, a list of filters includes 'Reported by me', 'All issues', 'Open issues', 'Done issues', 'Viewed recently', 'Created recently', 'Resolved recently', 'Updated recently', and 'View all filters'.

The main content area is titled 'My open issues' and includes a 'Save as' dropdown. Below the title, there are filters for 'Project: All', 'Type: All', 'Status: All', 'Current User', and a 'More' button. A search bar with 'Contains text' and a 'Search' button is present, along with a 'Switch to JQL' option. The 'Resolution: Unresolved, Done' filter is also visible.

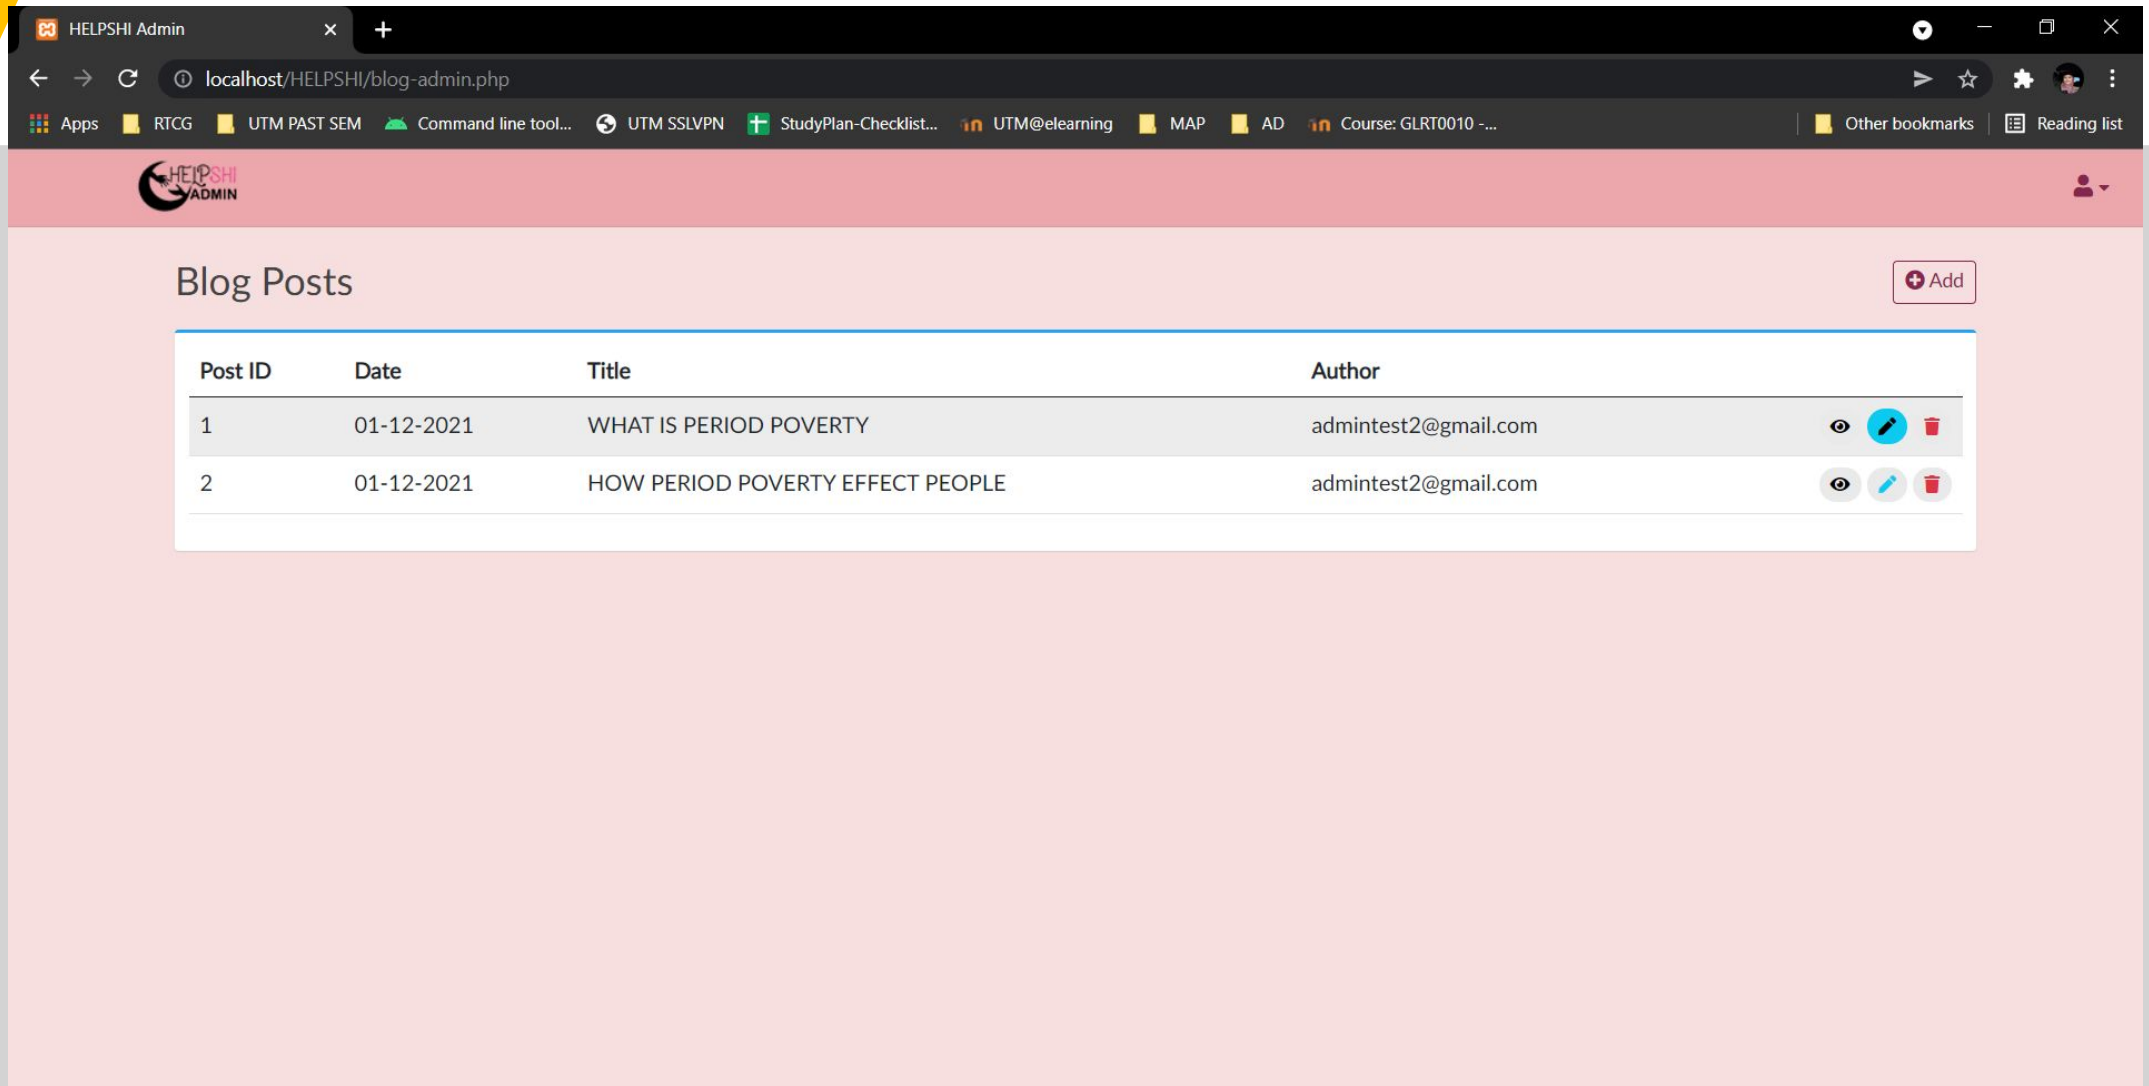

The issue list on the left shows four items:

- HSS-9: Delete blog post
- HSS-2: Login account
- HSS-10: Generate donation report
- HSS-18: Fill in 'Report Help' form

The details for the selected issue 'Delete blog post' (HSS-9) are shown on the right. The breadcrumb trail is 'Projects / HELPSHI System / Add epic / HSS-9'. The issue title is 'Delete blog post'. Below the title, there are buttons for 'Attach', 'Add a child issue', and 'Link issue'. The 'Description' section states: 'As an admin, I want to be able to delete my post at the blog page'. The 'Activity' section shows a list of comments, with a 'Show' dropdown set to 'All' and a 'Newest first' sort order. A comment input field is visible with the text 'Add a comment...'. A 'Pro tip' message says 'press M to comment'.

The right sidebar shows the 'Details' section for the issue. It includes the 'Assignee' (Ahanim8), 'Labels' (None), 'Sprint' (None +1), 'Original estimate' (0m), and 'Time tracking' (No time logged).

Team Member 3: Nur Hidayah

The screenshot shows a web browser window with the address bar displaying 'localhost/HELPSHI/blog-admin.php'. The browser's bookmark bar includes 'Apps', 'RTCG', 'UTM PAST SEM', 'Command line tool...', 'UTM SSLVPN', 'StudyPlan-Checklist...', 'UTM@elearning', 'MAP', 'AD', and 'Course: GLRT0010 -...'. The HELPSHI Admin interface has a pink header with the logo and a user profile icon. Below the header, the 'Blog Posts' section features a table with two entries. Each entry has a 'Post ID', 'Date', 'Title', and 'Author' column, followed by icons for viewing, editing, and deleting the post. An 'Add' button is located in the top right corner of the table area.

Title: WHAT IS PERIOD POVERTY ???

Contents:

Menstruation is the process in which the uterus sheds blood and tissue through the vagina. This is a natural and healthy process for girls and women of reproductive age. In Western communities, this is often called "the period." It typically lasts 2 to 5 days, but this varies by individual.

When a person begins to menstruate, this is called menarche. The age of menarche varies by individual.

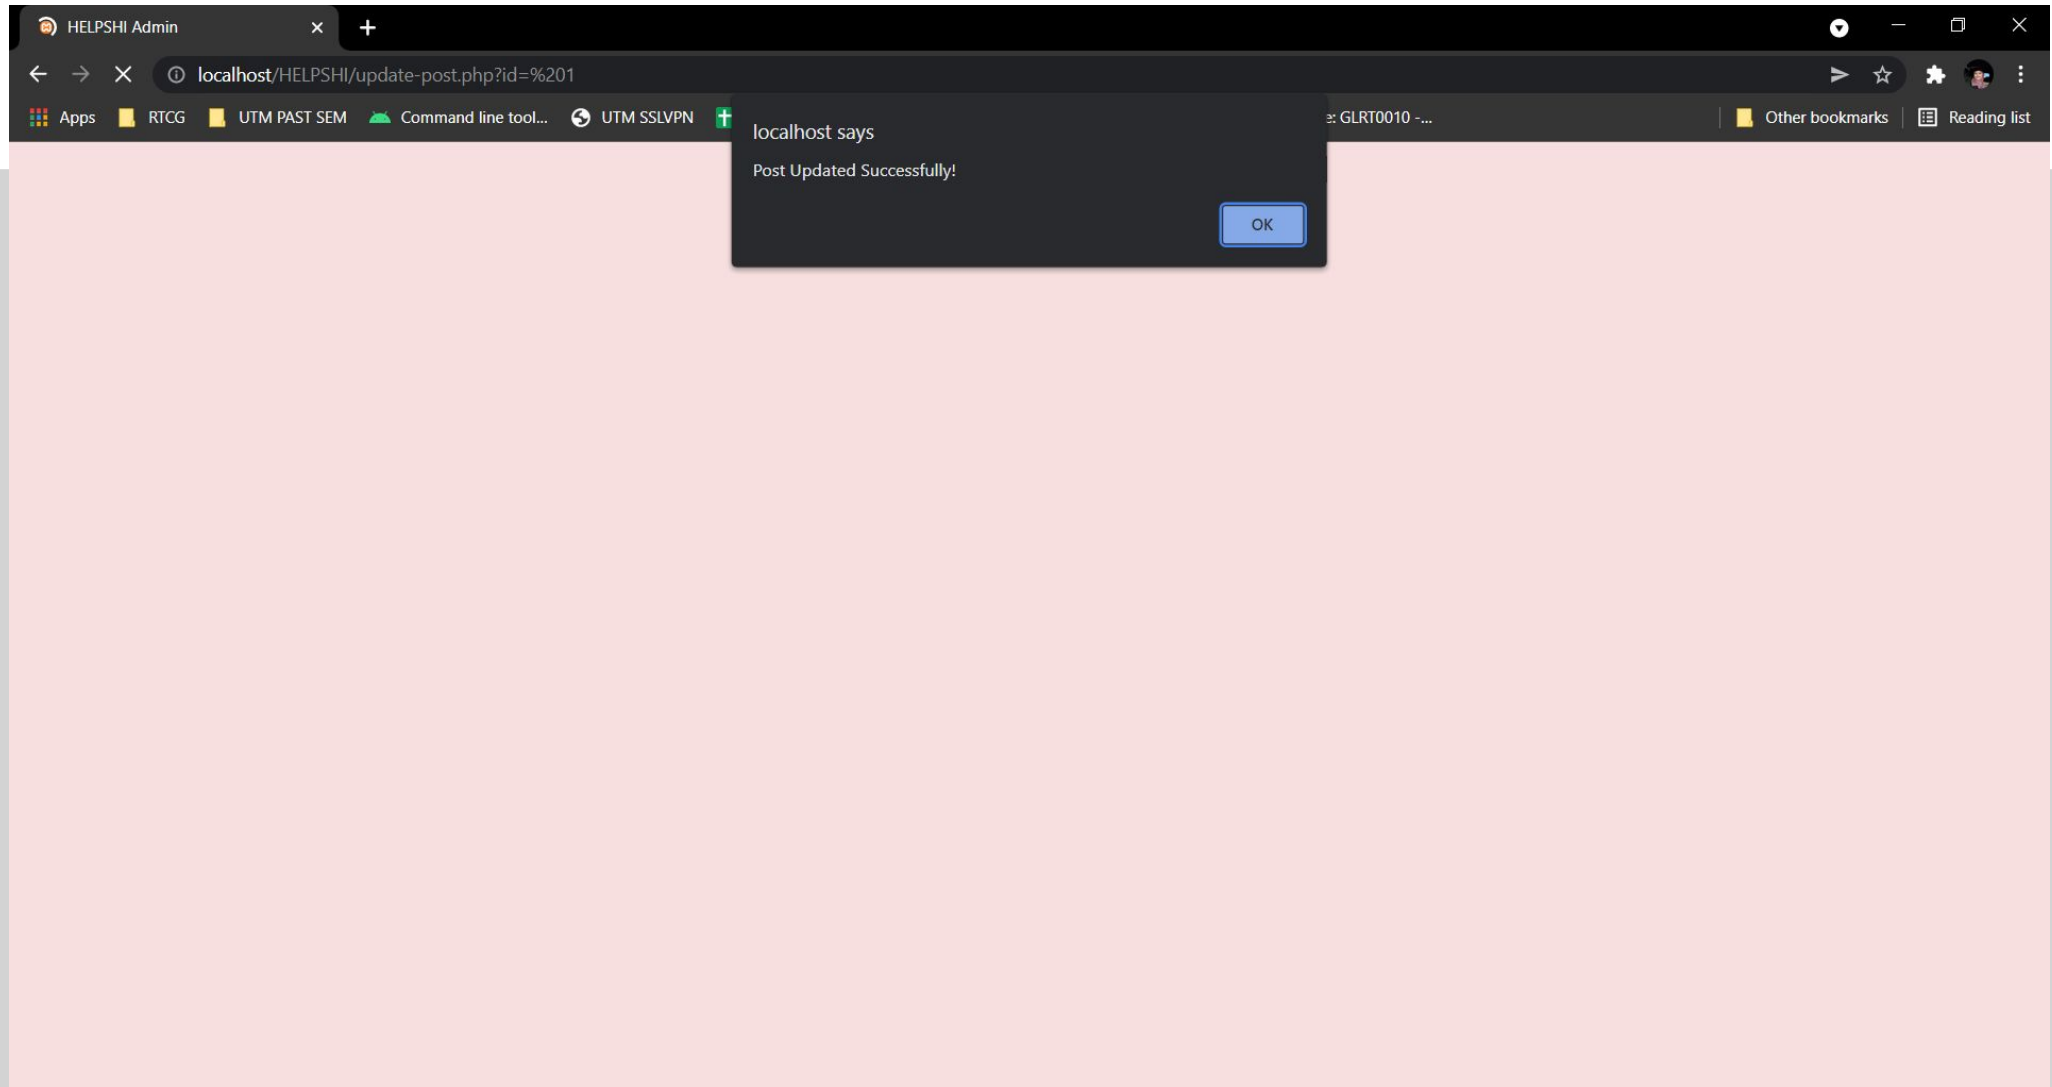

Menstruation is part of the menstrual cycle – a cycle of biological changes that take place in a woman or girl's reproductive system to prepare her body for a potential pregnancy. The changes are triggered by hormones, which are natural chemicals in the body. This cycle begins when a girl reaches puberty and continues until she reaches the end of her fertility (also known as menopause, at which time menstrual cycles end).

The screenshot shows a web browser window with two tabs: 'Dashboard' and 'HELPSHI Admin'. The address bar shows 'localhost/helpshi/create-post.php'. The page has a pink header with the 'HELPSHI ADMIN' logo and a user profile icon. The main content area is titled 'Create Blog Post' and contains a form with the following fields:

- Author:** A text input field containing 'helloadmin1'.
- Date:** A text input field containing '30-11-2021'.
- Title:** A text input field with the placeholder text 'Enter title'.
- Contents:** A large text area for the blog post content.
- Image:** A file upload section with a 'Choose File' button, the text 'No file chosen', and a note: 'The image must have a maximum size of 1MB'.

At the bottom right of the form are two buttons: 'Cancel' (grey) and 'Save' (pink).

HSS-7 (US007 – Create Blog Post)

Team Member 4: Nursyafiqah

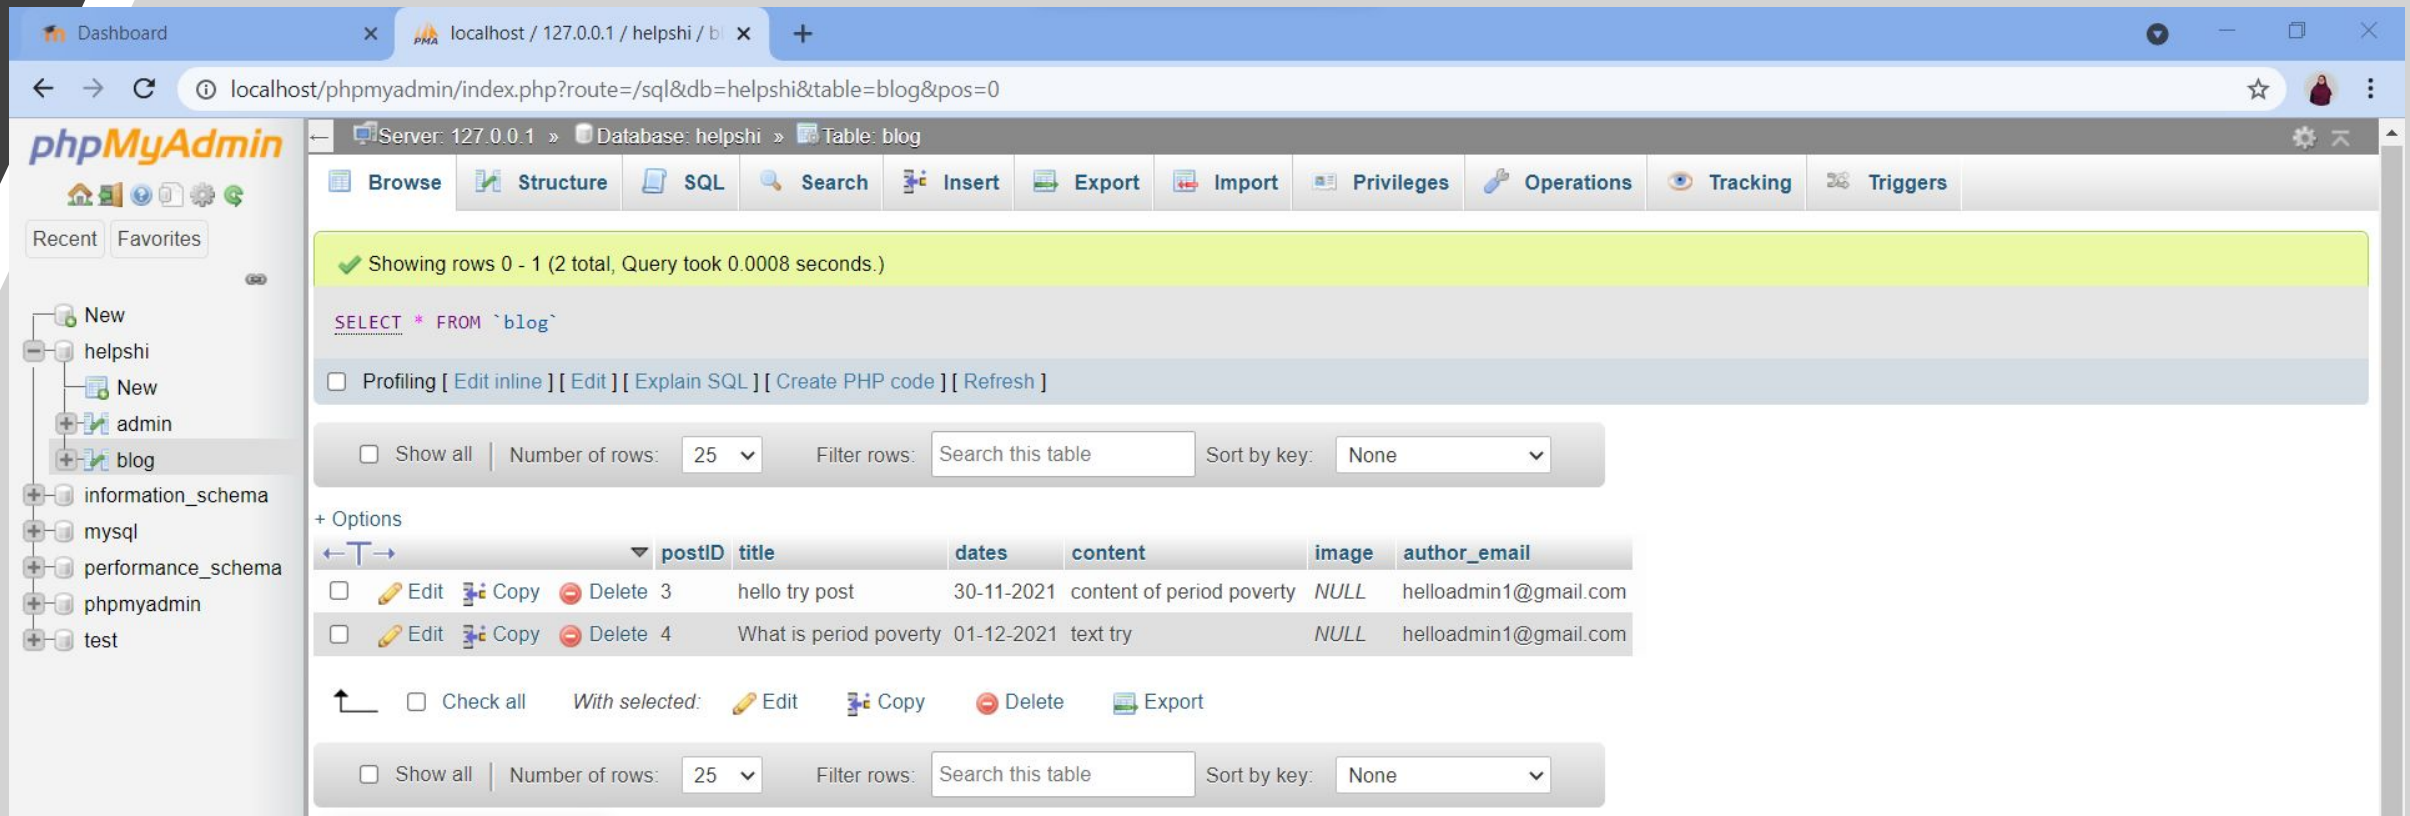

The screenshot displays the phpMyAdmin web interface in a browser. The address bar shows the URL: `localhost/phpmyadmin/index.php?route=/table/structure&db=helpshi&table=blog`. The interface includes a sidebar with a database tree on the left and a main content area on the right. The main content area shows the 'Table structure' view for the 'blog' table. The table has six columns: `postID` (int(100), primary key), `title` (varchar(100)), `dates` (varchar(50)), `content` (text), `image` (blob), and `author_email` (varchar(50)). Each column has a corresponding 'Action' menu with options like 'Change', 'Drop', and 'More'.

#	Name	Type	Collation	Attributes	Null	Default	Comments	Extra	Action
1	postID	int(100)			No	None		AUTO_INCREMENT	Change Drop More
2	title	varchar(100)	utf8mb4_general_ci		No	None			Change Drop More
3	dates	varchar(50)	utf8mb4_general_ci		No	None			Change Drop More
4	content	text	utf8mb4_general_ci		No	None			Change Drop More
5	image	blob			Yes	NULL			Change Drop More
6	author_email	varchar(50)	utf8mb4_general_ci		No	None			Change Drop More

At the bottom of the table structure view, there are checkboxes for 'Check all' and 'With selected:', followed by a row of icons for various table operations: Browse, Change, Drop, Primary, Unique, Index, Spatial, Fulltext, Add to central columns, and Remove from central columns.

Team Member 4: Nursyafiqah

The screenshot shows the phpMyAdmin web interface. The browser address bar displays the URL: `localhost/phpmyadmin/index.php?route=/sql&db=helpshi&table=blog&pos=0`. The interface shows the 'Server: 127.0.0.1' and 'Database: helpshi' context. The 'Table: blog' is selected, and the 'SQL' tab is active. A green status bar indicates 'Showing rows 0 - 1 (2 total, Query took 0.0008 seconds.)'. The SQL query `SELECT * FROM `blog`` is entered in the query box. Below the query box, there are options for 'Profiling' and 'Show all'. The table data is displayed with columns: `postID`, `title`, `dates`, `content`, `image`, and `author_email`. The table contains two rows of data. The first row has `postID` 3, `title` 'hello try post', `dates` '30-11-2021', `content` 'content of period poverty', `image` `NULL`, and `author_email` 'helloadmin1@gmail.com'. The second row has `postID` 4, `title` 'What is period poverty', `dates` '01-12-2021', `content` 'text try', `image` `NULL`, and `author_email` 'helloadmin1@gmail.com'. The interface also shows a sidebar with a tree view of databases and tables, including 'helpshi', 'information_schema', 'mysql', 'performance_schema', 'phpmyadmin', and 'test'.

Assigned Issues for Nursyafiqah

The screenshot displays the Jira Software interface for a user named Nursyafiqah. The browser address bar shows the URL: `gitgroup.atlassian.net/issues/?filter=-1&jql=assignee%20in%20(currentUser())%20AND%20resolution%20in%20(Unresolved%2C%20Done)%20order%20by%20updated%20DESC`. The left sidebar contains a 'Filters' section with options like 'Search issues', 'OTHER', 'My open issues', 'Reported by me', 'All issues', 'Open issues', 'Done issues', 'Viewed recently', 'Created recently', 'Resolved recently', 'Updated recently', and 'View all filters'. The main content area is titled 'My open issues' and includes a search bar with filters for Project, Type, Status, Current User, and Resolution. The search results show a table of issues assigned to Nursyafiqah.

T	Key	Summary	Assignee	Reporter	P	Status	Resolution	Created	Updated	Due
1	HSS-7	Create blog post	NURSYAFIQAH ABDUL HALIM A19EC3025	Siti Fatimah Az Zahra	==	DONE	Done	15/Nov/21	30/Nov/21	...
2	HSS-3	Update account	NURSYAFIQAH ABDUL HALIM A19EC3025	Siti Fatimah Az Zahra	==	DONE	Done	15/Nov/21	17/Nov/21	
3	HSS-11	Generate 'Report Poverty' report	NURSYAFIQAH ABDUL HALIM A19EC3025	Siti Fatimah Az Zahra	==	TO DO	Unresolved	15/Nov/21	15/Nov/21	
4	HSS-15	Fill in donation form	NURSYAFIQAH ABDUL HALIM A19EC3025	Siti Fatimah Az Zahra	==	TO DO	Unresolved	15/Nov/21	15/Nov/21	

Backlog and Active Sprint by Nursyafiqah

The screenshot displays the Jira Software web interface. The top navigation bar includes 'Jira Software', 'Your work', 'Projects', 'Filters', 'Dashboards', 'People', 'Apps', and a 'Create' button. The left sidebar shows a 'Filters' menu with 'My open issues' selected. The main content area is titled 'My open issues' and shows a list of issues on the left and a detailed view of a selected issue on the right. The selected issue is titled 'Create blog post' and has a description: 'As an admin, I want to be able to create new post in the blog'. The issue is assigned to 'NURSYAFIQAH ABDUL HALIM' and is part of 'HSS Sprint 2'. The right sidebar shows details for the issue, including the assignee, labels, sprint, and time tracking.
