Introduction: Use Case Diagram

Two users: Admin and Donors

- Admin can manage account, view page and generate report
- Donors only can view page, make donation request help and make report.

Introduction: Development Tools

Tool	Descriptions
 Visual Studio Code	<ul style="list-style-type: none">• Streamlined code editor with support for development operations like debugging, task running, and version control• Combines the simplicity of a source code editor with powerful developer tooling• lightweight well-done editor, with few features but less complex• Simple and intuitive
	<ul style="list-style-type: none">• A web-based language that tells browser how to showcase text and images on a webpage.• Easy to learn• Every browser supports HTML language
	<ul style="list-style-type: none">• A style sheet language used for describing the presentation of a document written in a markup language such as HTML• Saves time - can write CSS once and then reuse the same sheet in multiple HTML pages• Easy maintenance - To make a global change, simply change the style, and all elements in all the web pages will be updated automatically.
	<ul style="list-style-type: none">• A scripting languages, primarily used on the Web• Simplicity - relatively simple to learn and implement• Interoperability - plays nicely with other languages and can be used in a huge variety of applications.

Introduction: Development Tools

Tool	Descriptions
	<ul style="list-style-type: none">• An open-source package of web solutions that includes Apache distribution for many servers and command-line executables along with modules such as Apache server, PHP and more.• Helps a local host or server to test its website and clients via computers and laptops before releasing it to the main server
	<ul style="list-style-type: none">• A general-purpose scripting language that can be used to develop dynamic and interactive websites• It's easy to learn and use• It's versatile• It is well connected with databases
	<ul style="list-style-type: none">• A database system used in web• An open source, reliable, compatible with all major hosting providers, cost-effective, and easy to manage
 Jira Software	<ul style="list-style-type: none">• Used for planning, tracking and releasing the software• Can accomplish the work in progress, generate reports, backlogs etc• Built-in roadmaps - Track progress of how projects are progressing so you can get a clear overview of your teams work and plans.

The screenshot displays the 'HELPSHI ADMIN' login interface. At the top center is the logo, which consists of a black circular icon with a white hand reaching out, followed by the text 'HELPSHI' in a stylized font and 'ADMIN' in a bold, black, sans-serif font. Below the logo, the text 'Admin Login' is centered. The form contains two input fields: 'Email address' with a placeholder 'Enter Email' and 'Password' with a placeholder 'Password'. A red 'Login' button is positioned below the password field. At the bottom of the form, there is a link that reads 'Forgot password? [Reset](#)'.

The screenshot shows a web application interface for updating a user profile. The header is pink with a logo on the left and a user icon on the right. The main content area is light pink and titled 'Update Profile'. On the left is a circular profile picture placeholder showing a woman with black hair wearing a red top. To the right is a white form titled 'Personal Details' containing fields for Fullname (Admin Test), Email (admintest@gmail.com), Password (masked with dots), and Phone Number (012-3456789). Below these is an 'Image' section with a 'Choose File' button and the text 'No file chosen' and 'The image must have a maximum size of 1MB'. At the bottom right of the form are 'Cancel' and 'Save' buttons.
