Content of the activities

The event that was organized during the event period for all the participants and UTM students to enjoy watching was an E-sports games which consist few mobile games and also PC games. There also other activities such as Virtual Run where participant need to use an app to track their runs with allocated distance in order to count as completed the challenges and receive awards from the organizer. In this events all E-sports games were joined by many participant up to 30 to 50 participant per games. This really bring out the hype for the events .It also stream the match at the Facebook page so that the non-participant can enjoy the match when the competition is running.
