FACULTY OF ENGINEERING
SCHOOL OF COMPUTING
SEMESTER II 2021/2022

EXTRA-CURRICULAR ACTIVITIES REFLECTION REPORT

DATA ENGINEERING SYMPOSIUM

PREPARED BY:

NO	NAME	MATRIC NO.
1	ADAM WAFII BIN AZUAR	A20EC0003

ACADEMIC ADVISOR:

PROFESSOR DR. HABIBOLLAH BIN HARON

PREPARED ON:

16 JUNE 2022

This program was held back in 27th April 2021 from 2:15 PM until 4PM. The speaker for this program was Ms Qistina Batrisyia Binti Azman Shah. She was a UTM Alumni. Data Engineering Symposium or better known as DESYMP was organizes by Persatuan Mahasiswa Sains Komputer (PERSAKA). The program was streamed online through PERSAKA Facebook live.

The speaker was invited to share her insights on the career tracks for Data Engineering students like myself. She also shared about her working experiences as a Data Engineer at a company called TMONE.

All in all, personally I think this program was successful since there are over 100 participants join for this program. I also believe that this program can greatly benefit me as a data engineering student.
