CONNECTING PEOPLE WITH NATURE 2022 (COPE'22)

NAME	Matric No.
AZLINAH BINTI HERMAN	A20EC0018
ACADEMIC ADVISOR	
TS. DR. NUR HALIZA BINTI ABDUL WAHAB	

Justification

This event was organized by Student College Committee (JKM) under Kolej Tun Dr. Ismail (KTDI) UTM on 28th May 2022. The objective of this program is to give awareness to participants of the importance of nature and to improve the landscape around KTDI by planting more trees. This program also helps the participants to release their stress from assignments and classes by going out of their room and making their bodies sweat from digging a hole for the purpose of planting the tree.

Graduate Attributes

1. Leadership and Teamworking Skills
2. Scholarship

Content of the activity

The program started early in the morning with prayer recitation and singing of Negaraku songs. Next, the director of the program and the principal of KTDI are invited to give a speech and officiate the program. Before the activity, we are warming up by doing a simple exercise because we will do heavy labor by planting a tree. The crew is briefed shortly on the steps to plant a tree to avoid us planting wrongly. We are divided into several groups and the crew are assigning each group a number of trees that need to be planted and the location of the planting. My group gets the highest number of trees and the location is at M36. The duration of planting the trees is almost 3 hours with 6 trees. After planting the trees, breakfast is served to all the participants. Before the program ended, we took lots of pictures during the photography session.
