Academic Advisor:

Dr. Goh Eg Su

1.0 Introduction

Annual Grand Meeting 2022 (AGM'22) is an annual event by CGMA for the election of new committee members. This program was held on Saturday, 14th May 2022 by CGMA. I one of the participants in this program as I am also the student of Computer Science (Graphic and Multimedia Software). The program was held online due to the Covid-19 outbreak that had ravaged our country at the time. This initiative allows students of Computer Science (Graphics and Multimedia Software) to gain more knowledge about Computer Graphics.

2.0 Graduate Attributes

Attributes that are related to AGM'22 are leadership and teamwork skills and communication skills.

- Leadership and Teamwork skills

The program aims to choose students who will eventually run this association. Thus, the ability to lead is a must for those chosen for this program. I could tell that they were successful in developing people that could lead throughout the program, offering participants a good selection.

- Thinking skills

We are obligated to vote on who will be the future CGMA president in this program. In order to decide who deserves to be the future leader, we must think as hard as we can. This is due to the fact that if we choose poorly, both this association and ourselves will suffer as a result.

3.0 Role in the Activities

I was a participant and prayer reader in this program.

4.0 Report

Below is the poster for this program:

Below is the tentative for this program:

Time	Activities
08.00PM	Registration
08.30PM	Opening Ceremony
