(GRAPHICS AND MULTIMEDIA SOFTWARE)

EXCEL MINI REPORT

NAME: AMIRUL SHAFIQ BIN AMIRRULAH

MATRIC NUMBER: A20EC0013

ACADEMIC ADVISOR: DR AJUNE WANIS BINTI ISMAIL

Program Justification

This program was conducted on 27 March 2021 and the platform are conducted on both Google Meet and Discord. This program is organised by Computer Graphic and Multimedia Association (CGMA) and I joined as a participant. As a participant, there are many fun activities conducted by the team in charge to keep us participants entertained. This program is basically targeted second year and third year students from Computer Science Graphic and Multimedia. The program aims to share an internship experience to students, to conduct a sharing session and communication between senior students and sophomore/third-year students.

Graduate Attributes

1. Communication Skills
2. Leadership Skills
3. Thinking Skills

Program Tentative

After the program had been commenced, there was an internship talk by some of the final year seniors. There is also a Q & A session between the seniors and the juniors. After the session, there was a speech about the students' academic future, conducted by Dr. Zuraifah. Then the students were asked to use Discord for communication purposes. All of the students had some ice-breaking sessions and sharing sessions between group members. Of course, we juniors were shy to talk about ourselves at first, but we got adapt pretty quickly because of how humble the seniors are. Things were lively back then. Few moments later, there was a reflection session where we junior students have to reflect ourselves, what do we get from the program. There was also a second Q & A session where we students discussed with the team in charge and the seniors on how to improve our quality of life, in terms of social, mental and to maintain our academic knowledge.
