Minute meeting

Date	Activity	Proof
27/03/2022	<ul style="list-style-type: none"> In the first meeting, we discussed the group's name and agreed on the name "Hello World". Then, we started on our floorplan. We used our group's floorplan from the previous semester and edited its layout so it will meet the current project's requirements. We used the drawing.net software to perform this task. 	 <p>The screenshot shows a Google Meet window with a presentation titled 'Floor Plan drawing'. The drawing is a simple floor plan on a grid. The meeting interface shows four participants: Azlin Razali, Azlinah Herman, Siti Hajar, and You. The system clock at the bottom indicates 10:52 PM on 27/3/2022.</p>
28/03/2022	<ul style="list-style-type: none"> On our next meeting, which took place on 28/03/2022, we managed to finish editing our floorplan. We did some last-minute changes and checked our work before moving on to report writing. 	 <p>The screenshot shows the same Google Meet window, but the presentation now displays a more complex and detailed floor plan labeled 'GROUND FLOOR'. The participants remain the same. The system clock at the bottom indicates 10:32 PM on 28/3/2022.</p>

- We did the report as a group and managed to complete it on the same day. We did the report using the designated format.
- We checked the report and the floorplan before submitting.
