Achievement

1 Problem solving skill

- Debugged and resolved complex technical issues, improving system efficiency
- Identified and fixed bugs in applications, enhancing user experience

2 Professional growth

- Gained proficiency in tools like , Docker, MySQL, WordPress
- Improved communication and teamwork by collaborating with developers to meet project goals.

3 Testing and Quality Assurance

- Conducted thorough testing for apps, including UAT, identifying and resolving bugs to meet client requirements.
- Delivered detailed bug reports and ensured final features were user-friendly and ready for deployment.

Reflection

- Technical Skill Development: Gained hands-on experience with eWallet applications, database management, app testing, and industry-standard tools like Docker and AWS, enhancing my technical proficiency.
- Adaptability and Problem-Solving: Learned to adapt to new tools and technologies within tight deadlines, developing resourcefulness and effective problem-solving strategies.
- Collaboration and Communication: Improved teamwork and communication skills by collaborating with diverse teams to address client expectations and resolve complex issues efficiently.
- Continuous Learning: Gained a deeper understanding of the dynamic tech industry and the importance of ongoing learning to stay relevant in the field.
- Career Preparedness: The experience solidified my passion for software engineering and equipped me with the skills needed to tackle future challenges confidently.

Thank You
