Application for Engineering Job

Dear Recruiting Department,

Nice to meet you, I am currently a fourth year undergraduate student who is taking Bachelor's Degree in Mechatronics Engineering in University Technology of Malaysia (UTM). I am writing here to express my interest for job application in your company. It will be a good experience for me to work in your company.

In my course, I have learnt some basic knowledge on electronic circuit analysis and programming skills such as Assembly Language, C language. I also have the chance to expose myself to PLC programming during the last semester. Software that I have learnt in my course are Matlab, Pspice, Multisim and Atmel Studio. For extracurricular, I have participated in an Autocar competition organized by UTM in order to enhance my skills on electronic circuit designed, mechanism and programming skills.

Kindly refer to my resume attached for further details and I am available for an interview scheduled at your convenience.

Thank you for your time and consideration.

Sincerely,

Teoh Kheng Hong
