NALI 2019
NEW ACADEMIA LEARNING INNOVATION 2019
INNOVATION IN (HUMANISING) EDUCATION

GROUP 8 :

ANIKA SHAHZAD
JARED RYAN SHEREMAN
NURIFFATISH SHIMA BINTI NORAZMI
FAHIM SHAHRIYAR RAHMAN

New Academia Learning Innovation (NALI) Model is a framework comprising student-centred and blended learning philosophy, multiple learning modes and materials towards achieving entrepreneurial academia.

SNAZZY SETS GAME CARD

A few key features are 2 main languages(English and Bahasa Melayu), being very practical to carry around, highly cost effective, applys to the up-to-date learning and comprises of multiple HOTS & computational thinking skills. Not only that, it sharpens the mathematical thinking skills, encourages mathematical communication skills and game based learning skills.

MOBILE LEARNING APPS FOR LANGUAGE LISTENING SKILLS

The objective of study is to develop mobile application for English language listening practices and to explore students' perception towards the effectiveness of using mobile application for English language listening practices. This is done so as it is highly convenient for students with an internet connection to be practicing English at any given time and also because it being small, it is easy to carry around.
