One fine day, Baddy's school teacher had organized bungee jumping activity for the students. The teacher had explained to them about the steps and precautions of this activity. Then, the teacher divides them into two groups. The students were so excited and eager to play the activity. Furthermore, the teacher promised to award the winners with ice-creams and they felt even happier and can't wait to play.

The following day, the activity had begun. All the students were competitive and joyfully playing. The goal of the game is to collect most balls in a box and they will be declared as winners. So the students started to collect the balls by catching and placing them in a box. While they were playing, the teacher assigned Goody (class representative) to monitor the class students and went to buy ice-creams for the students. Moreover, both the groups had collected the balls evenly which made the game harder. Out of the blue, Baddy was worried as the opponent group might win the game. Then, Baddy had an idea of cutting of the rope with a penknife which will make the ball easier to catch.

As the teacher was away, Baddy saw this as an opportunity to win. Thus, he cuts the rope with the penknife and redeem bear with more balls. Goody had monitored the whole incident and takes note to inform the teacher later. Once the teacher is back, Goody informs her about the incident. The teacher then inquires Baddy but he refuses to accept his mistake. Even other also complaint about his action. The teacher gets angry and frustrated.

The teacher then, makes up her mind decides to punish Baddy. She then assigns Baddy to do a summary about a documentary report at library. Baddy sadly nods his head, say sorry and agrees to the teacher's statement. Baddy sits in the library alone thinking about finishing the report.

Happy Ending

*Special thanks to:
Baddy – Bad guy
Goody – Good guy*

In a nutshell, Baddy's classmates feels sad for him and therefore they came and helped him to do the report together.

Moral of story: Do not take shortcuts and always be honest.
