

OBJECTIVES :

- To enable students learn better and effectively
- Increase students' engagement in learning activities
- Easy access to educational materials

OBSTACLES :

- Lack of funding, support and infrastructure
- Distractions and misusage
- Not all teachers are capable of using new technologies

SOLUTIONS :

- Collaborate with the companies that are related to the digital learning
- Educate and discipline the students before trusting them with the technology
- Hire more IT staffs in the school

USAGE :

- Using technology in learning foreign language
- Providing a more attractive and entertaining learning experience
- Access to educational resources

EXAMPLES :

- Duolingo apps – various selection of languages, quizzes
- Virtual Reality – virtual roadtrip to inaccessible places like a historical place
- Youtube – online lectures and lab tutorials
- 3D printing – instil spatial intelligence
