

FACULTY OF ENGINEERING/SCHOOL OF COMPUTING

2019/2020

UHLB1112 (ENGLISH COMMUNICATION SKILLS)

NAME / MATRIC NO	1. AINA ALIAH BINTI RUSLAN (A19EC0012) 2. INTAN MARINA BINTI SULAIMAN (A19EC0053) 3. NUR HADIRAH MUNAWARAH BINTI ROZMIZAN (A19EC0201) 4. SHAKIRAH BINTI MOHD SHUKUR (A19EC0159)
COURSE	1 – SECP (DATA ENGINEERING)
SUBMITSSION DATE	17 DECEMBER 2019
LETCURER'S NAME	MADAM LINDA PRAPAGARA

Along a semester in UTM (Universiti Teknologi Malaysia), we gain many experiences. As we remember our first-time steps in here, we felt like fish out of the water as we never been here. As time passes by, we tried to explore this huge place. There were someplace that we went to.

The first place that we go to is Balai Cerapan but usually, it is called Balai Cerap. During our MMM (Minggu Mesra Mahasiswa), some of the crew had told us about the wonderful view at the Balai Cerap. So we decided to went there and see it by ourselves. We need to have a long walk or jog to go there as it is located quite far. We can exercise and help us to keep our body to stay healthy. We as computer science students, mostly spend our time in front of the PC. So along the way, we able to see the green of nature and wit helps to maintain our eyes health. This is like killing two birds with one stone.

Along our journey to Balai Cerap, there is located a Recreational Forest. This forest is about 53 hectares large. There are many facilities were provided such as an open hall that able for us to carry out any activities. Some activities that can be carried out here were camping and jungle trekking. Other than that, there also have a river. Its water is so cold!

On Tuesday, usually, UTM has a night market. It is located near the main entrance of UTM. There were a lot of foods sold there such and we able to eat different types of food compared to our café. We can take a ride on the bus to go there after class. The night market was operated in the evening around 4 pm until 7 pm.

After busy spending our money on the night market, we used to go to the lake which was nearby the night market to have a short break. The lake's name is 'Tasik Ilmu'. Most of the students will spend their time with their friends here or making a short reunion after having a hectic week. It is a great option as they can enjoy their food and relax with their friends.

As the time pass by, being one of UTM's student is a great opportunity that we have. It will be a good experience that we will have. Within 3 years, many more places that we can explore in UTM.
