LOCAL FRUIT

Pisang

Pisang is a local fruit from Malaysia. My group found this fruit in Pejabat kolej KTR in K01. They are sold at this fruit amount 50 sen per 1 Pisang and this fruit tastes so good and this fruit is the same like fruit in Indonesia. They are called Pisang as same like called from Malaysia and the taste is the same like in Indonesia too. So I think Indonesia has a similar local fruit from Indonesia and Malaysia, because we are a neighbor.

In Malaysia, they have a lot of kinds of banana like Pisang Lemak Manis, Pisang Awak, Pisang Tanduk, Pisang Abu, Pisang Helang and so on. The best Pisang in Malaysia, they people said is Pisang Lemak Manis is the Best pisang they said because about the taste so good and delicious and the example banana in the top is a Pisang Emas the taste is good we are like this Pisang after try this fruit I think that's all from group reflection

Thank you.....
