FACULTY OF ENGINEERING

SCHOOL OF COMPUTING

PREPARED FOR:

DR JOHAN MOHD SHARIF

Date: 01 January 2018

Venue: Senai International Airport

Organiser: School of Computing UTM

Graduate attributes:

1. Adaptability
2. Communication skills
3. Thinking skills
4. Leadership and Teamworking skills
5. Global citizen

Role: participant

Report:

This activity is based on a scientific concept where we are a student who takes up science computer in network and computer security needs to go through for the future. The visit was intended to give introduction to new students about what could be obtained through this field. Therefore, with this activity we can know what jobs we have supposed to work.

This visit allows me to think mature about the list of jobs I will follow. This visit allows me to practice my communication skills while working. This tour allows me to think out of the box in the innovation of aviation industry. This tour fosters the value of cooperation between the group in solving problems. This visit allows me to know how people are out in assessing working areas on computer safety network.

I have a watchful note that every course taken in the university has the challenges and obstacles that need to be faced in order to achieve a brighter future
