At first, i thought it will be very tough for each of us. But as time goes by, everything just nice and interesting. If i need to rate how much i enjoyed this journey, it will be 9.8/10. For another 0.2/10 only me know. Hehe!

Actually, i was so thankful that the volunteer experience was incredible! I'm the kind of person who loves to make new friends and learn about different cultures. Working as a volunteer, being part of this amazing member provided unforgettable memories.

Despite all the cold showers and the uncomfortable transport, all the conversations, the good laughs, the food (yes, the food was so good!) these bad things became irrelevant and everything I can remember will be the good points of the journey.
