**"P**hilosophy" means, "love of wisdom". Philosophy is an activity People attempt when we try to understand the major truth about ourselves and the world where in we live & Comprehend key relationship to the world and to each other.

Prior to getting chance to study in UTM for graduation, It was a dream for me to get chance to Universiti Techlonogi Malaysia. My Home Country is Bangladesh. I have completed both SSC(2016) & HSC(2018) From Birshrestha Munshi Abdur Rouf Public College. All of my academic results are excellent. Not only academic, but also I had participated a lot of Extra Curriculum in my college life. In my college life, I met many kind of people and I had to do a lot of Project like free teaching to poor uneducated people etc. I had to communicate those people, in this regarding Philosophy Subject teach me to how to easily solve a problem, Understanding, Develop to handle a challenges etc.

In short the study of philosophy helps us to improve our capacity to take care of issues, our relational abilities, convincing power, and composing aptitudes. The aim in Philosophy isn't to ace an assemblage of realities, to such an extent as think clearly and strongly through any arrangement of realities.

My main expect from education of philosophy is its commitment to our ability to outline theories, to do research and to put problems in manageable form. Careers and occupation are only aspect of the rest of my life. The study of philosophy is not only theory influence how i think but also my improvement as a person. The study of philosophy can be really advancing a profoundly satisfying and it is brilliant groundwork for long lasting learning and an improvement scholarly and social presence. It can assist me to live better by helping me to comprehend myself as a thinking, acting being.
