# INTRODUCTION

---

Ace Tech is a company offers great buys on computer hardware. We are a team from Ace Tech to launch a new storage device build based on your needs. Our priority is you, our valued users. We take the time to understand the issues faced by PC users while using storage devices. We use innovative approach to upgrade the existing storage devices to make them more reliable, compatible, and have faster access speed. Our product is unique because it combines creativity and innovative as well as traditional ways to make it more cost effective and trustworthy

# VISION

As a hardware company we aim to make continuous development on our product. Our vision is to create certain hardware which is able to data backup in the future completed in an eyeblink. Our objective for the far future is to make portable data backup becomes wireless without sacrificing the transfer speed.

# MISSION

OUR MISSION :

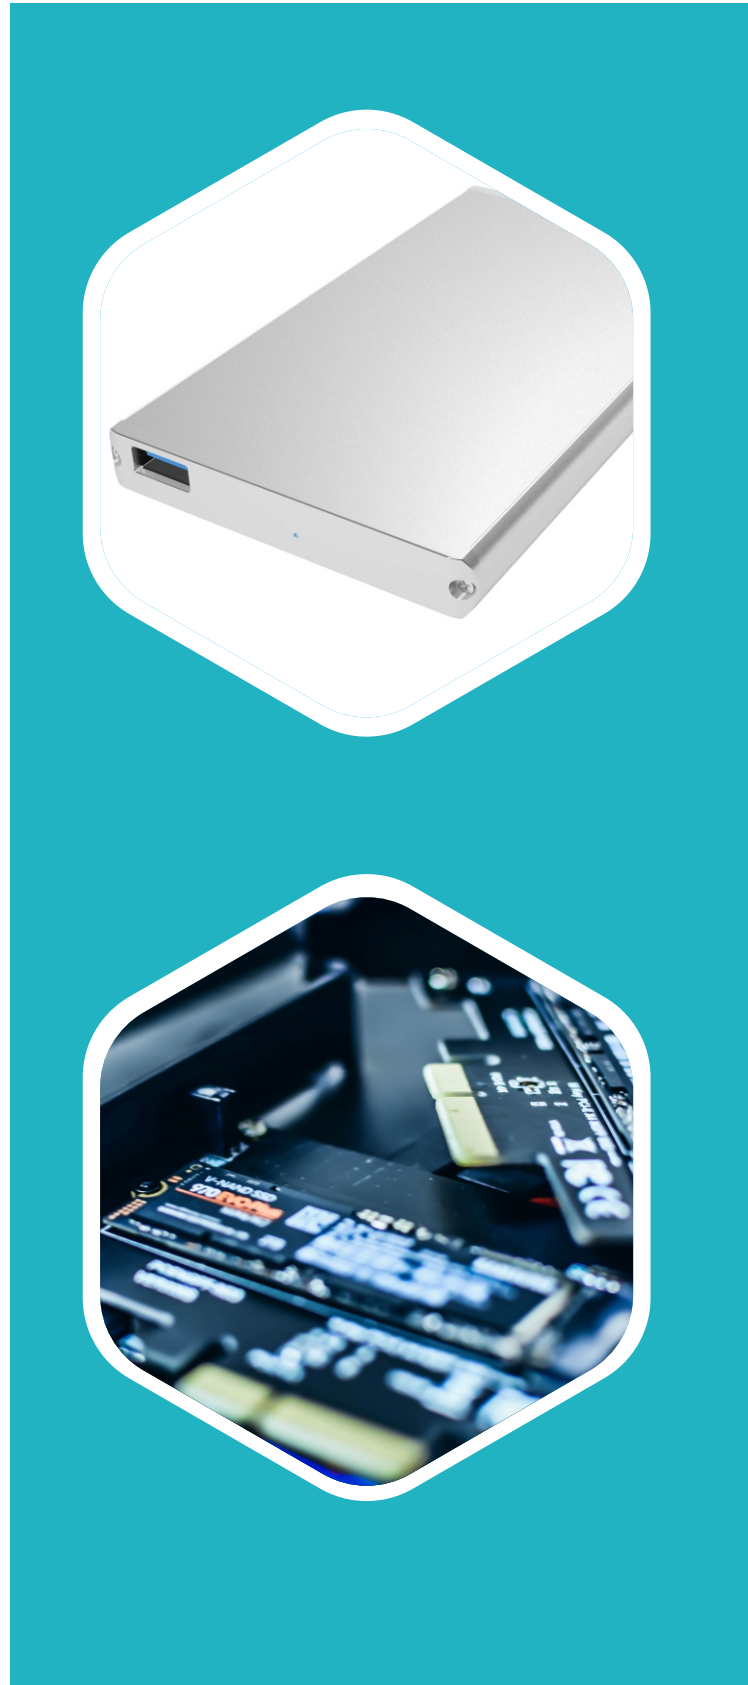

1. Research new breakthrough in data storing technology
2. Research new features for portable external harddisk
3. To provide better technology that keep pushing the boundary and limit of our daily lives

# OUR BEST PRODUCT

Our portable external hard disk using the latest data storing technology to enable you transfer your data from your devices in an extraordinary speed and carry the data with you to anywhere with ease.

We have created a powerful storage component to solve all the problems suffered by most PC users. Our highspeed and high-capacity external hard disk helps you backup your data in a short time without worries of potential data leaked as we provide necessary protection to secure your data.

01

With the use of SSD our portable external hard disk provides a high data reading and writing.

02

Due to its compact and light design our portable external hard disk can fit into all sorts of bags and will cause no problem while you're going anywhere.

03

Thanks to the latest technology this hard disk is encrypted with newly refined security and will ensure its data will not leak.

04

Our portable external hard disk is compatible with any devices that has a USB port making it compatible to every PC and laptops.
