

UHLB 1112: ENGLISH COMMUNICATION SKILLS, was overall a wonderful experience. This course was very informative as well as very well organized. This course was designed according to the best way a course can be designed for the students so that they can learn all the things that are necessary to develop their communication skills that is one of the main aims of this course. Headway book was used throughout the semester for different topics. Because of the pandemic, our classes were held online throughout this entire semester. This course gives emphasis to develop our reading, writing as well as listening skills. Besides, there were group tasks too that helped us to develop our teamworking skills as well as leadership qualities. The main things that we learned from this course are mostly basic and a bit advanced grammatical topic which are compulsory for basic English. As most of the students are from different countries, so there are many students who have less knowledge about English. So, this course helps them to develop their current condition and the students who are already good in English, this course helps them to practice more and more. The assessments were very much helpful for all of us as it helped to develop all our skills and also helped us to implement the things that we learned during the course. The quizzes were skill based and we did a lot of them as a result of which our confidence increased day by day. The group projects helped us to work with our friends from the different countries of the world as a result we could know about their culture and their systems. Being very honest I don't think any thing in this course needs to be improved as it is already very well structured.
