

E-Portfolio Reflection

The first and foremost goal of this course is to eventually find a job in my relevant industry that is not only meaningful to me but also lucrative at the same time. For that purpose, I must acquire all the necessary skillset required to implement my education in practical life. Another goal of my program is to establish a sense of confidence which will in turn help me face any obstacles which I might encounter in my future endeavours. Attaining technical knowledge is never enough I want my course to enable me to be socially aware too because eventually I'm going to be working in an environment where I have to be around people and deal with them on a day to day basis so I want this program to instil such qualities in me that will help me have a healthy work life. Human beings have an incessant need to always be the best at everything they do which is why one of the goals that I have concerning my program is that I want my program to enable me to be the best at what I do and help me utilize my potential in the best way possible. We live in the age of innovation in order to get an edge over other people a person cannot just rely on the knowledge he gets from books. We have to think outside the box for that it is necessary for a person to be in command of the technical skills and knowledge relevant to his field.

Firstly, in order to achieve my goals, I have to put in extra effort relying merely on academics is not going to help me in achieving my goals, for that I must ensure that I master certain programming languages as it is the basic requirement in the industry when it comes to my field and I have to find out ways that increase my productivity and efficiency. I have to follow a consistent routine and divide my tasks in a way that can be performed comfortably because at the end of the day working smart beats working hard. I have to take part in extracurricular activities in order to maintain a balanced life. Lastly I have to be respectful towards my teachers because they are going to play a vital role in the success of my goals.
