VALUES

Tap the app, find the item

I-One is the fastest way to get your item. One tap and your item can be located anywhere. You know exactly where to find and you shouldn't be worrying for misplacing your thing.

OBJECTIVES

Establishing brand awareness

• increase the number of social media likes and reach on our platforms which is Facebook and Instagram.

• sell the experience of our product by communicating to our audience how our business satisfies a want or need or makes their lives more convenient

Focusing on customer service

• measure our customers satisfaction with costs and overall quality of the product

• reduce delivery and distribution time of products

• improve the response time of client inquiries

Increasing sales figures

• focus on ways we can surpass the competition in product quality and brand recognition

• implement a marketing strategy to attract new buyers

VISION

To be the company that best understands and satisfies the product, service and self-fulfilment

MISSION

Build a unique and handy alarm/tracker, which striving to increase revenue, engage with customers, improve market share and boost brand recognition

HOW WE WORK

What we commence from is the definition of the best outsourcing model that addresses the client needs. We can take full ownership on both development process and business requirements or just provide staff expansion for existing team. However, regardless of the model we always build long-term partnership on transparency, reliance & professionalism.

THE RIGHT PROCESS

• Ability to manage changing priorities

• Improved project visibility

• Increased productivity

• Enhanced software quality

• Reduced risks

• Faster time-to-market

Client focused:

Our approach is to only work with clients with whom we can form long term relationships and where our veracity, integrity and process fit their way of working.
