UNIVERSITI TEKNOLOGI MALAYSIA

Mini Report

Event:

**UTM Engineering Student Virtual Hangout
Zone - Graduate Employability A Sharing
Session: From A Reservoir Engineer
Perspective**

Academic Advisor: Dr. Norsham Binti Idris

Name	Matric No.
SEE WEN XIANG	A19EC0206

Programme: Bachelor of Computer Science (Software Engineering)

Justification in joining the activity:

Student Virtual Hangout Zone is an online event which organised by Faculty of Engineering, UTM Johor Bahru since Pandemic era through Facebook Live. This is a good chance to let us have a motivation by attending this Virtual Hangout Zone. It really brings some motivation to let us looking forward our future from different perspective.

The Graduate Attributes that are focused on:

- **Communication Skills:** Communication skills was one of the graduate attributes that were focused on because we need communication among people. From this sharing session, I have learned that we need improve our communication skill which can lead us have a happy working environment.
- **Scholarship:** Scholarship was focused on because we need to think about to seek and manage relevant information from variety sources, develop an inquisitive mind in our future working life by having a Can-Do Attitude.
- **Leadership and Teamworking Skills:** Leadership and teamworking skills were involved because the speaker has sharing that leadership maybe will direct or indirectly applied in working life, and we need keep practice to have a good leadership skill to let team can working together to produce a single output.
- **Adaptability:** Adaptability was also involved in this activity we have known that we need have ability to work effectively under pressure because if we are not able to work effectively under pressure we will be eliminated since we cannot competent the job.
- **Global Citizen:** Global citizen was also involved in this activity because we have known that we need to always keep updated current world issues to avoid derailed from the world while working time.

Content of the activity:

Basically, the activity UTM Engineering Student Virtual Hangout Zone has invited Mr. Dennis Ling Hua Sid give a talk about Graduate Employability from a reservoir engineer perspective around 45 minutes. He has shared some event which he had attend before and what soft skill we should improve to have a brighten future. After sharing session, he had chosen some question from comment to answer.
